SECTION A

STATEMENT OF SERVICES

1.0 INTRODUCTION

The Alaska Railroad Corporation ("ARRC") is soliciting proposals from qualified vendors to provide, implement, integrate, and support a secure, customer-facing Accounts Receivable (AR) Payment Portal solution fully integrated with Oracle JD Edwards EnterpriseOne (JDE E1).

1.1 Purpose

ARRC seeks a focused AR payment and invoice presentment solution specifically designed for and proven in Oracle JD Edwards EnterpriseOne environments. The preferred solution shall specialize in:

- JD Edwards-integrated AR workflows
- Customer invoice presentment
- ACH and credit card payment processing
- Automated payment reconciliation
- Customer self-service account management
- PCI-compliant payment processing
- Direct/native JD Edwards integration

ARRC is not seeking a generalized eCommerce platform or broad customer engagement suite.

1.2 Background

ARRC is Alaska's statewide railroad, providing freight, passenger, real estate, and related business services across a broad customer base. As part of these operations, ARRC manages a high volume of customer billing and receivables activity that requires secure, accurate, and efficient payment processing. ARRC is seeking a solution that supports customer self-service, improves payment visibility and reconciliation, reduces manual effort, and integrates reliably with its existing Oracle JD Edwards EnterpriseOne environment.

1.3 Current Environment and Existing Payment Processing Environment

ARRC currently utilizes on-premise Oracle JD Edwards EnterpriseOne on IBMi infrastructure utilizing IBMi DB2 database as its enterprise resource planning (ERP) platform for finance and operational processes.

ARRC currently utilizes Wells Fargo Merchant Services for payment processing. ARRC currently processes credit card payments manually

2.0 SCOPE OF WORK

Under this contract, the selected contractor shall provide the software, implementation services, technical expertise, documentation, training, and support necessary to deliver a secure, customer-facing Electronic Payment Solution for ARRC. The contractor shall work collaboratively with ARRC project staff throughout planning, configuration, integration, testing, deployment, and knowledge transfer activities. The solution shall enable customers to view invoices and account balances, make ACH and credit card payments, access payment history, and manage payment methods, while

integrating with Oracle JD Edwards EnterpriseOne for customer, invoice, payment, and reconciliation data. The contractor shall provide implementation guidance, system configuration, deployment support, and post-go-live support necessary for ARRC to place the solution into operational use.

2.1 The solution shall modernize and streamline current customer payment operations through implementation of a secure, PCI-compliant online payment portal that allows customers to:

- View open invoices and account balances
- Make ACH and credit card payments
- Access payment history and statements
- Manage payment methods
- Reduce manual AR processing effort
- Improve customer self-service capabilities

The solution must integrate directly with JD Edwards EnterpriseOne Accounts Receivable modules and customer master data.

2.2 ARRC is open to alternative payment processors, gateways, or merchant service models where vendors can demonstrate meaningful operational, technical, or financial advantages.

Vendors proposing alternative payment processing solutions shall clearly identify:

- expected transaction fee impacts or savings,
- gateway and processor licensing costs,
- migration requirements,
- reconciliation and settlement workflow impacts,
- PCI and security considerations,
- processor portability limitations,
- and any contractual or operational dependencies.

ARRC prefers solutions that preserve long-term flexibility and avoid unnecessary processor or gateway lock-in.

2.3 Preferred Architecture Principles

ARRC strongly prefers solutions and implementation approaches that align with the following architectural principles:

- Minimize middleware complexity and operational overhead
- Utilize native or direct Oracle JD Edwards EnterpriseOne integration methods wherever possible
- Avoid duplicate customer, invoice, and payment repositories.
- Support real-time or near-real-time synchronization between the payment portal and JD Edwards
- Minimize custom code ownership and long-term maintenance burden for ARRC
- Minimize PCI scope and exposure to ARRC systems, infrastructure, and personnel
- Utilize tokenized payment processing and secure hosted payment workflows
- Support future JD Edwards upgrades with minimal integration rework
- Provide strong auditability and reconciliation capabilities
- Support scalable SaaS or cloud-hosted deployment models

- Provide resilient, supportable, and commercially mature architectures
- Reduce dependency on third-party integration platforms wherever feasible
- Support modern API-based integration approaches and/or JD Edwards Orchestrator capabilities
- Provide clear operational ownership boundaries between vendor-managed and ARRC-managed components
- Support maintainable and well-documented deployment architectures suitable for long-term enterprise support
- Support Wells Fargo Merchant Services integration or provide alternative commercially supported processor/gateway architecture
- Avoid proprietary payment processor lock-in that would limit ARRC's future flexibility

ARRC strongly prefers commercially mature solutions with proven production deployments in JD Edwards EnterpriseOne environments on IBMi and IBMi DB2.

2.4 Out of Scope/ Non-Goals

ARRC is seeking a focused Electronic Payment Solution integrated with Oracle JD Edwards EnterpriseOne. The following initiatives are considered outside the scope of this procurement unless explicitly proposed as optional services:

- Full eCommerce platform replacement
- Customer Relationship Management (CRM) replacement
- Retail point-of-sale (POS) systems
- General customer portal modernization unrelated to AR workflows
- ERP replacement or ERP modernization initiatives
- Custom application development unrelated to payment processing
- Large-scale digital commerce transformation initiatives

DESCRIPTION

WEIGHT

1. Firm Experience & Schedule

1. Weight: 10

Offerors shall demonstrate their firm's experience delivering commercially mature, production-ready Electronic Payment Solution solutions integrated with Oracle JD Edwards EnterpriseOne. ARRC will evaluate the extent to which the firm has successfully implemented comparable solutions in production environments, the relevance and quality of that experience to ARRC's requirements, and the firm's demonstrated ability to provide long-term implementation, support, and operational continuity.

Offerors shall provide at least three customer references for production JD Edwards-integrated AR payment portal implementations.

Due to ARRC's aggressive implementation schedule, Offerors shall also provide a detailed project schedule that identifies major tasks, milestones, deliverables, required ARRC involvement, testing activities, training, and go-live dates. The schedule shall demonstrate the Offeror's ability to successfully implement the solution within ARRC's desired timeframe and identify any assumptions, dependencies, or constraints that could affect project completion.

ARRC will evaluate the realism, completeness, and feasibility of the proposed schedule, as well as the Offeror's demonstrated history of delivering similar implementations on schedule.

2. Solution

2. Weight: 10

Offerors shall describe the proposed solution and demonstrate how it satisfies ARRC's functional, technical, security, and operational requirements.

ARRC will evaluate the extent to which the proposed solution supports direct or native integration with Oracle JD Edwards EnterpriseOne; provides real-time or near-real-time invoice visibility; supports automated AR receipt updates; enables PCI-compliant ACH and credit card payment processing; provides customer self-service invoice presentment and payment functionality; and includes audit logging, reconciliation support, and secure tokenized payment workflows.

ARRC will also evaluate the overall architecture, including required middleware, third-party software, and external dependencies; compatibility with ARRC's existing Wells Fargo Merchant Services environment or the clarity and advantage of any proposed alternative processor or gateway model; identification of operational limitations, unsupported functionality, or roadmap-dependent capabilities; and the completeness of the implementation, support, and operational documentation needed for long-term enterprise supportability.

3. Solution Architecture & Integration

3. Weight: 15

Offerors shall describe the proposed solution architecture, payment processing architecture, and Oracle JD Edwards EnterpriseOne integration approach.

ARRC will evaluate the extent to which the proposed architecture is commercially mature, secure, supportable, and aligned with ARRC's operational and technical requirements, including the overall solution architecture; JD Edwards integration methodology; middleware requirements, including any ARRC-hosted components or server dependencies; synchronization capabilities; Wells Fargo integration approach or clearly documented alternative processing model; ACH and credit card payment workflows; tokenization approach; PCI boundary architecture; error handling and reconciliation workflows; ARRC system requirements; operational support model; third-party dependencies; and any known limitations or constraints.

Vendors may attach (up to 5 pages):

- architecture diagrams,
- workflow diagrams,
- PCI boundary diagrams,
- integration diagrams,
- or supplemental technical documentation.

4. Payment Processing Commercial and Operational Considerations

4. Weight: 15

ARRC currently utilizes Wells Fargo Merchant Services; however, ARRC is open to evaluating alternative payment processing and gateway approaches where operational or financial advantages can be demonstrated.

Vendors shall briefly describe:

- Proposed payment processor and gateway approach
- Whether Wells Fargo integration is supported
- Any required processor or gateway changes
- Any significant operational or reconciliation impacts
- Any major third-party dependencies or middleware requirements
- Any known processor portability or vendor lock-in limitations

5. Functional Requirements Response Matrix

5. Weight: 20

Response will be scored as follows:
$$\frac{(\text{Offeror's Requirements Score}) \times (\text{MPP}^*)}{(\text{Score of Highest Requirements Proposal})} = \text{Criterion Score}$$

*MPP = Maximum Possible Points = (5) x (Number of Evaluators) x (Weight)

6. Cost Proposal (Spreadsheet is in the Functional Requirements Matrix)

6. Weight: 30

- a) Cost shall be submitted on the provided Cost Proposal Excel Spreadsheet
Cost shall include the Total cost of ownership over a five-year period.
- b) The cost/fee matrix must be submitted as a separate Dropbox submittal.

Response will be scored as follows:
$$\frac{(\text{Lowest Total Proposed Price}) \times (\text{MPP}^*)}{(\text{Offeror's Total Proposed Price})} = \text{Criterion Score}$$

*MPP = Maximum Possible Points = (5) x (Number of Evaluators) x (Weight)

Per ARRC Procurement Rule 1500.1, for the purposes of evaluating price, the proposed price of an offeror who qualifies as an Alaska bidder under Rule 1500.1 shall be reduced by 5%.

CONTRACT AWARD

Once ranking has been established, ARRC will begin negotiations with the highest ranked firm. If an agreement cannot be reached on contract terms, negotiations will be terminated, and negotiations will be conducted with the next highest ranked firm, until an agreement is reached, or until ARRC exercises its right to cancel the solicitation.

SECTION E

SELECTION PROCESS

Evaluation of Proposals

Proposals will be evaluated by a committee. Evaluation of responses to criteria set forth in Section D results in a numerical score for each proposal. Each criterion has an assigned weight for this RFP which demonstrates its relative importance. The total of all weights is 100 (100%). Each one- percent weight equates to a range of 0-5 points per Evaluator. The maximum points (score) obtainable for any proposal is equal to the product of 500 multiplied by the number of Evaluators.

1. Scoring of proposals will be accomplished as follows:

1.1 Each Evaluator will individually read and rate each Offeror's response to each criterion described in Section D - Technical Proposal. Ratings will be based solely on contents of proposal and in compliance with the ARRC's Instructions for Evaluation Committee. Except as may be stated within any criterion description, a rating of "5" = Best Response from all Offerors; "4" to "1" = Progressively Less Responsive; "0" = Non-Responsive. Ratings are multiplied by the assigned weights for each criterion to obtain criteria scores.

1.2 After completion of individual ratings, the Evaluation Committee will meet to discuss proposals. Evaluators may then alter their ratings; however, any changes shall be based solely on the criteria set forth in Section D.

1.3 After scoring Section D - Technical Proposal, criteria scores - Cost (if applicable), will be calculated based on criteria descriptions.

1.4 The total score for each Offeror will be obtained by summing the scores determined for each criterion in Section D. The order of ranking for negotiations shall be as follows: highest scored Offeror will be ranked first, next highest scored second, and etcetera.

2. Evaluators may discuss factual knowledge of, and may investigate Offerors' and proposed Subcontractors' prior work experience and performance, including projects referenced in proposal, available written evaluations, etcetera, and may contact listed references or other persons knowledgeable of a Contractor's and/or a Subcontractor's past performance. Factors such as overall experience relative to the proposed contract, quality of work, control of cost, and ability to meet schedules may be addressed. If any issues of significant concern to the proposed contract are discovered, the Committee may:

2.1 Provide written recommendations for consideration during contract negotiations;

2.2 Conduct discussions in accordance with paragraph 3, below.

3. The Committee may decide to conduct discussions (or "interviews") with responsible Offerors whose proposals are determined to be reasonably susceptible of being selected for award for the purpose of clarification to assure full understanding of, and responsiveness to, the solicitation requirements. Offerors selected by the Committee for discussions may be permitted to submit Best and Final Offers (BAFO) for final Committee Evaluation. After discussions and any BAFO's, Evaluators will determine the final scoring and ranking for contract negotiations by evaluating written and oral responses using only the criteria set forth in Section D.

4. All Offerors will be advised of the Offeror selected for negotiation and, after completion of negotiations, a Notice of Intent to Award will be provided to all Offerors. If contract negotiations are unsuccessful with Offeror(s) selected for negotiation, the Contracting Agency may either cancel the solicitation or negotiate with other Offerors in the order of ranking.

SECTION G

GENERAL TERMS AND CONDITIONS (Professional Service Contracts) (Revised 3/4/08)

The following terms and conditions supersede the terms and conditions on the reverse side of ARRC's purchase order to the extent that they are inconsistent therewith and shall be deemed to have the same force and effect as though expressly stated in any such purchase order into which this document is incorporated.

1. Definitions.

"ARRC" shall mean the Alaska Railroad Corporation.

"Contractor" shall mean the person or entity entering into the contract to perform the work or services specified therein for ARRC.

"Contract" shall mean these General Terms and Conditions, the contract form to which they are annexed, and all other terms, conditions, schedules, appendices or other documents attached to the contract form or incorporated by reference therein.

"Services" shall mean any work, direction of work, technical information, technical consulting or other services, including but not limited to design services, analytical services, consulting services, construction management services, engineering services, quality assurance and other specialized services furnished by Contractor to ARRC under the contract.

2. Inspection and Reports. ARRC may inspect all of the Contractor's facilities and activities under this contract in accordance with the provisions of ARRC Procurement Rule 1600.9. The Contractor shall make progress and other reports in the manner and at the times ARRC reasonably requires.

3. Claims. Any claim by Contractor for additional compensation or equitable adjustment arising under this contract which is not disposed of by mutual agreement must be made by Contractor in accordance with the time limits and procedures specified in sections 1800.12 et seq. of ARRC's Procurement Rules, which by this reference are hereby incorporated herein.

4. Nondiscrimination.

4.1 The Contractor may not discriminate against any employee or applicant for employment because of race, religion, color, national origin, ancestry, physical or mental handicap, sex, marital status, change in marital status, pregnancy or parenthood when the reasonable demands of the positions do not require distinction on the basis of age, physical handicap, sex, marital status, changes in marital status, pregnancy, or parenthood. To the extent required by law, the Contractor shall take affirmative action to insure that the applicants are considered for employment and that employees are treated during employment without unlawful regard to their race, color, religion, national origin, ancestry, physical or mental handicap, age, sex, marital status, changes in marital status, pregnancy or parenthood. This action must include, but need not be limited to, the following: employment, upgrading, demotion, transfer, recruitment or recruitment advertising, layoff or termination, rates of pay or other forms of compensation, and selection for training including apprenticeship. The Contractor shall post in conspicuous places, available to employees and applicants for employment, notices setting out the provisions of this paragraph.

4.2 The Contractor shall cooperate fully with ARRC efforts which seek to deal with the problem of unlawful discrimination, and with all other ARRC efforts to guarantee fair employment

practices under this contract, and promptly comply with all requests and directions from the State Commission for Human Rights or any of its officers or agents relating to prevention of discriminatory employment practices.

4.3 Full cooperation in Paragraph 4.2 includes, but is not limited to, being a witness in any proceeding involving questions of unlawful discrimination if that is requested by any official or agency of the State of Alaska; permitting employees of the Contractor to be witnesses or complainants in any proceeding involving questions of unlawful discrimination, if that is requested by any official or agency of the State of Alaska; participating in meetings; submitting periodic reports on the equal employment aspects of present and future employment; assisting inspection of the Contractor's facilities; and promptly complying with all State directives considered essential by any office or agency of the State of Alaska to insure compliance with all federal and state laws, regulations, and policies pertaining to the prevention of discriminatory employment practices.

4.4 Failure to perform under this section constitutes a material breach of the contract.

5. Cancellation/Termination.

5.1 ARRC may, for its sole convenience, cancel this contract in whole or in part, at any time by giving written notice of its intention to do so. In the event of such cancellation, Contractor shall be entitled to receive payment in accordance with the payment provisions of this contract for services rendered or charges incurred prior to the effective date of termination. Contractor shall not be paid for any work done after receipt of a notice of cancellation or for any costs incurred by Contractor's suppliers or subcontractors which Contractor could reasonably have avoided. In no event shall ARRC be liable for unabsorbed overhead or anticipatory profit on unperformed services.

5.2 In addition to ARRC's right to cancel this contract for its convenience, ARRC may, by written notice of default to Contractor, terminate the contract in whole or in part in the following circumstances:

(1) The Contractor refuses or fails to perform its obligations under the contract, or fails to make progress so as to significantly endanger timely completion or performance of the contract in accordance with its terms, and Contractor does not cure such default within a period of ten (10) days after receipt of written notice of default from ARRC or within such additional cure period as ARRC may authorize; or

(2) Reasonable grounds for insecurity arise with respect to Contractor's expected performance and Contractor fails to furnish adequate assurance of due performance (including assurance of performance in accordance with the time requirements of the contract) within ten (10) days after receipt of a written request by ARRC for adequate assurance; or

(3) Contractor becomes insolvent or makes an assignment for the benefit of creditors or commits an act of bankruptcy or files or has filed against it a petition in bankruptcy or reorganization proceedings.

5.3 Upon receipt of a notice of cancellation or termination, Contractor shall immediately discontinue all service and it shall immediately cause any of its suppliers or subcontractors to cease such work unless the notice directs otherwise and deliver immediately to ARRC all reports, plans, drawings, specifications, data, summaries or other material and information, whether completed or in process, accumulated by Contractor in performance of the contract. In the event of termination for default, Contractor shall not be entitled to receive any further payment until the work is finished. If the unpaid balance of the amount to be paid on this contract exceeds the expense of finishing the work, compensation for additional managerial and administrative services and such other costs and damages

as ARRC may suffer as a result of Contractor's default, such excess shall be paid to Contractor. If such expense, compensation, costs and damages shall exceed such unpaid balance, Contractor shall be liable for and shall pay the differences to ARRC. The rights and remedies of ARRC provided in this section shall not be exclusive and are in addition to any other rights and remedies provided by law.

6. No Assignment or Delegation. The Contractor may not assign, subcontract or delegate this contract, or any part of it, or any right to any of the money to be paid under it, except with the prior written consent of ARRC. The hiring or use of outside services, subcontractors or Contractors in connection with the work shall not be permitted without the prior written approval of ARRC. No such approval shall relieve Contractor from any of its obligations or liabilities under this contract.

7. Independent Contractor. The Contractor's relationship to ARRC in performing this contract is that of an independent contractor and nothing herein shall be construed as creating an employer/employee relationship, partnership, joint venture or other business group or concerted action. The personnel performing services under this contract shall at all times be under Contractor's exclusive direction and control and shall be employees of the Contractor, and not of ARRC.

8. Payment of Taxes. As a condition of performance of this contract, the Contractor shall pay all federal, state, and local taxes incurred by the Contractor and shall require their payment by any subcontractor or any other persons in the performance of this contract. Satisfactory performance of this paragraph is a condition precedent to payment by ARRC under this contract.

9. Ownership of Work Product. Except for items that have preexisting copyrights, all exhibits, drawings, plans, specifications, notes, reports, data, recommendations, artwork, memoranda and any other information prepared or furnished by Contractor to ARRC in the performance of this contract (collectively "Work Product") shall become the property of ARRC and may be used by ARRC for any other purpose without additional compensation to the Contractor. Contractor hereby grants ARRC an irrevocable, perpetual, royalty-free, fully assignable license (with full sublicense rights) to use all proprietary and confidential information and other intellectual property that may be incorporated into any of Contractor's Work Product for ARRC. Should ARRC elect to reuse said Work Product, ARRC shall indemnify, hold harmless and defend Contractor and its subcontractors against any damages or liabilities arising from said reuse. When Work Product produced by the Contractor and its Subcontractors under this Contract are reused by ARRC, the Contractor's and Subcontractor's signatures, professional seals, and dates shall be removed. If such Work Product requires professional signature and seal, it will be signed, sealed, and dated by the professional who is in direct supervisory control and responsible for the new project for which such Work Product is being reused.

Contractor hereby represents and warrants to and for the benefit of ARRC and its successors and assigns that no part of its work product for ARRC will infringe any patent rights or copyrights or utilize any proprietary, confidential or trade secret information or other intellectual property for which Contractor does not have the unqualified right to grant ARRC the license and sublicensing rights referred to above. Contractor shall defend, indemnify and hold harmless ARRC, its successors and assigns, and their respective representatives, agents and employees from and against, any and all claims, defenses, obligations and liabilities which they may have or acquire under or with respect to any patent, copyright, trade secret, proprietary or confidential information, or any other form of intellectual property that may be asserted by Contractor or any other person which arises out of, results from or is based upon the manufacture, use or sale by ARRC or any of its successors or assigns of any of Contractor's work product for ARRC. ARRC shall have the right to select its legal counsel and control its defense in any litigation resulting from any such claim.

10. Governing Law. This contract, and all questions concerning the capacity of the parties, execution, validity (or invalidity) and performance of this contract, shall be interpreted, construed and enforced in all respects in accordance with the laws of the State of Alaska.

11. Alaska Executive Branch Ethics Act Requirements. No officer or employee of the State of Alaska or of the ARRC and no director of the ARRC or legislator of the state shall be admitted to any share or part of this contract or to any benefit that may arise therefrom. Contractor shall exercise reasonable care and diligence to prevent any actions or conditions which could be a violation of Alaska Statute 39.52 et seq. Contractor shall not make or receive any payments, gifts, favors, entertainment, trips, secret commissions, or hidden gratuities for the purpose of securing preferential treatment or action from or to any party. This obligation will apply to the activities of Contractor's employees and agents in their relations with ARRC employees, their families, vendors, subcontractors, and third parties arising from this contract and in accomplishing work hereunder. Certain gratuities may be given or accepted if:

- (1) there is no violation of any law or generally accepted ethical standards;
- (2) the gratuity is given as a courtesy for a courtesy received and does not result in any preferential treatment or action;
- (3) the gratuity is of limited value (less than \$150) and could not be construed as a bribe, payoff or deal; and
- (4) public disclosure would not embarrass ARRC.

ARRC may cancel this contract without penalty or obligation in the event Contractor or its employees violate the provisions of this section.

12. Non-Disclosure of Confidential Information. Contractor acknowledges and agrees that for and during the entire term of this contract, any information, data, figures, projections, estimates, reports and the like received, obtained or generated by Contractor pursuant to the performance of this contract shall be considered and kept as the private, confidential and privileged records of ARRC and will not be divulged to any person, firm, corporation, regulatory agency or any other entity except upon the prior written consent of ARRC. Furthermore, upon termination of this contract, Contractor agrees that it will continue to treat as private, privileged and confidential any information, data, figures, projections, estimates, reports and the like received, obtained or generated by Contractor during the term of the contract and will not release any such information to any person, firm, corporation, regulatory agency or any other entity, either by statement, deposition or as a witness except upon the express written authority of ARRC. ARRC shall be entitled to an injunction by any competent court to enjoin and restrain the unauthorized disclosure of such information.

Contractor's agreement of non-disclosure as specified in this section applies except to the extent required for (1) performance of services under this contract; (2) compliance with professional standards of conduct for preservation of the public safety, health, and welfare (so long as Contractor has given ARRC prior notice of the potential hazard and ARRC has had a reasonable opportunity to correct the hazard prior to disclosure); (3) compliance with a court order or subpoena directed against Contractor (so long as Contractor has given ARRC prior notice of such and ARRC has had an opportunity to contest the same in a court of law); or (4) Contractor's defense against claims arising from performance of services under this contract.

13. Covenant Against Contingent Fees. Contractor warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for Contractor, to solicit or secure this contract, and that it has not paid or agreed to pay any person, company, individual, or firm any commission, gift, percentage, fee, contingent upon or resulting from the award or making of this contract. For the breach or violation of this warranty, ARRC may terminate this contract without liability and, at its discretion, deduct from the contract price or otherwise recover the full amount of the commission, percentage, gift, or fee.

14. Standard of Performance. Contractor shall perform its services with care, skill and diligence in accordance with normally accepted industry standards and shall be responsible for the professional quality, technical accuracy, completeness, and coordination of all reports, designs, drawings, plans, information, specifications and other items and services furnished under this Contract. Contractor shall comply with all applicable federal, state and local laws and ordinances, codes, and regulations in performing its services. If any failure to meet the foregoing standard of performance appears within one (1) year after the services are accepted by ARRC, Contractor shall, at a minimum, re-perform the work at no cost to ARRC and shall reimburse ARRC for any additional costs that may be incurred by ARRC or any of its contractors or subcontractors as a result of such substandard work. If Contractor should fail to re-perform the work, or if ARRC determines that Contractor will be unable to correct substandard services before the time specified for completion of the project, if any, ARRC may correct such unsatisfactory work itself or by the use of third parties and charge Contractor for the costs thereof. The rights and remedies provided for in this section are in addition to any other remedies provided by law.

15. Warranty. In the event Contractor supplies equipment, goods, materials or other supplies in addition to services under this contract, Contractor warrants that said items: (a) shall be of good quality and free from all defects and deficiencies in workmanship, material and design; (b) shall be fit, suitable and operate successfully for their intended purpose; (c) shall be new; (d) shall be free from all liens, claims, demands, encumbrances and other defects in title; and (e) shall conform to the specifications, if any, stated in the contract. Contractor shall honor all guarantees and warranties offered by the manufacturer of the equipment, goods, materials or other supplies provided under this contract. The rights and remedies provided for in this section are in addition to any other remedies provided by law.

16. Indemnification. Contractor shall defend, indemnify and hold ARRC harmless from and against all claims and actions asserted by a third party (or parties) and related damages, losses and expenses, including attorney's fees, arising out of or resulting from the services performed or neglected to be performed by Contractor or anyone acting under its direction or control or in its behalf in the course of its performance under this contract and caused by any error, omission or negligent act, provided that Contractor's aforesaid indemnity and hold harmless agreement shall not be applicable to any liability based upon the independent negligence of ARRC. If there is a claim of, or liability for, the joint negligent error or omission of the Contractor and the independent negligence of ARRC, the indemnification and hold harmless obligation shall be apportioned on a comparative fault basis. The term "independent negligence" is negligence other than ARRC's selection, administration, monitoring, or controlling contractor and in approving or accepting Contractor's work.

17. Insurance. Without limiting Contractor's indemnification, it is agreed that Contractor shall purchase at its own expense and maintain in force at all times during the performance of services under this contract the following policies of insurance. Where specific limits are shown, it is understood that they shall be the minimum acceptable limits. If the Contractor's policy contains higher limits, ARRC shall be entitled to coverage to the extent of such higher limits. Certificates of Insurance must be furnished to the ARRC contracting officer prior to beginning work and must provide for a 30-day prior notice of cancellation, non-renewal or material change. Failure to furnish satisfactory evidence of insurance or lapse of the policy is a material breach and grounds for termination of the Contractor's services.

17.1 Workers' Compensation Insurance: The Contractor shall provide and maintain, for all employees of the Contractor engaged in work under this contract, worker's compensation insurance as required by applicable law. The Contractor shall be responsible for worker's compensation insurance for any subcontractor who directly or indirectly provides services under this contract. This coverage must include statutory coverage for states in which employees are engaging in work and employer's liability protection not less than \$100,000 per person, \$100,000 per occurrence. Where applicable, coverage for all federal acts (i.e. U.S.L. & H. and Jones Acts) must also be included.

17.2 Comprehensive (Commercial) General Liability Insurance: With coverage limits not less than \$1,000,000 combined single limit per occurrence and annual aggregates where generally applicable and shall include premises-operations, independent contractors, products/completed operations, broad form property damage, blanket contractual and personal injury endorsements. Said policy shall name ARRC as an additional insured and contain a waiver of subrogation against ARRC and its employees.

17.3 Comprehensive Automobile Liability Insurance: Covering all owned, hired and non-owned vehicles with coverage limits not less than \$100,000 per person/\$300,000 per occurrence bodily injury and \$50,000 property damage. Said policy shall name ARRC as an additional insured and contain a waiver of subrogation against ARRC and its employees.
