PROJECT

Snowden Administration Building Facade

Project site: Snowden Building, 820 W. 4th Avenue, Anchorage, AK 99501

Description and sequence of Work:

Project is an exterior siding replacement for an existing Alaska State Court System Admin. office building in downtown Anchorage, Alaska

This building has had a number of additions and renovations since a small original part was built in the 1940's. The building is referenced in various old documents as having four zones (a, b1, b2, and c) which loosely correspond to the original building and major additions. The building structure is largely CMU and cast in place concrete w/some steel & wood framed elements, such as interior partitions and floor & ceiling structure. The siding getting replaced is believed to have been installed in the 1970s, with modifications to the fascias & copings in the early 2000's.

Base bid:

- Demolition of existing north side's siding, signage, and punched opening windows, down to bare supporting walls (largely CMU).
 1. Existing walls have combination of pebble-embossed stucco on metal lathe & furring, painted CMU, & blue mosaic tile. (see demo elevations.)
- Re-siding w/ new air barrier, furring, continuous insulation, & either 12x12 stacked bond porcelain tile or laminated phenolic resin panels, depending on which part of the wall it is (see new elevations.)
- Adding a cast-in-place concrete curb at the sidewalks.
- Adding a new decorative state of Alaska map shaped sign feature & new led lit letter signage.
- Replacing the existing aluminum-framed curtain walls and entry door w/ new.
- Includes wrapping approx 6' of east side w/ new siding.
- Replacing (2) wall mounted flagpoles w/ (2) new flagpoles in planter area
- No substantial increase in siding loads.
- No substantial mechanical or electrical work other than remove and replace & adding new exterior decorative led lit sign letters
- No interior work except as needed to patch & repair disruption caused by exterior work.

Additive Alternate #1:

- Re-siding the 1-story tall portion of the east side of the building with same phenolic resin panels & concrete curb.
- Replacing the windows along this wall.

Because this is a level 1 alteration per the 2018 IEBC, it is anticipated that there will be minimal life-safety plan review needed.

A building permit may be required by the Municipality of Anchorage, as well as possibly separate right-of-way, demolition & electrical work permits. Contractor is responsible for attaining all required permits & work authorizations.

Shutting down of streets, alleys, or sidewalks in the right-of-way or on private property requires careful coordination with the owner(s) & the proper city departments having jurisdiction, as well as possibly the state of Alaska DOT, which owns & maintains many of the downtown anchorage streets. Contractor responsible for coordinating right-of-way, sidewalk, & street work.

There is limited-to-none area on the property available for lay down of materials or staging, or contractor employee parking. contractor to devise a material delivery and disposal plan coordinated w/ the owner.

Additive Alternate #2

Optional State of Alaska Seal

This project will have no changes to:

- Building heights, areas, or setbacks
- Building construction class (type VP)
- Occupancy type (B-business),
- Occupant load,
- fire ratings,
- Automatic fire suppression,
- Plumbing fixture counts,
- Accessibility,
- Or parking count

For this reason, a full code analysis has not been performed, and no code/life safety plans are included. Code notes are included on certain sheets for information only.

8.2.3 If the fact that other such Work which is to be performed is identified or shown in the Contract Documents, the CONTRACTOR shall assume all liability, financial or otherwise, in connection with this Contract and indemnify and save harmless the OWNER from any and all damages or claims that may arise because of inconvenience, delay, or loss experienced by the CONTRACTOR because of the presence and operations of other contractors.

8.2.4 If the fact that such other work is to be performed is not identified or shown in the Contract Documents, written notice thereof will be given to the CONTRACTOR prior to starting any such other work. If the CONTRACTOR believes that such

- performance will require an increase in Contract Price or Contract Time, the CONTRACTOR shall notify the Contracting Officer of such required increase within 15 Calendar Days following receipt of the Contracting Officer's notice. Should the Contracting Officer find such increase(s) to be justified, a Change Order will be executed.
- 8.3 Access, Cutting, and Patching:
- The CONTRACTOR shall afford each utility owner and any other contractor who is a party to a direct contract with the OWNER (or the OWNER, if the OWNER is performing the additional work with the OWNER's employees) proper and safe access to the site and a reasonable opportunity for the introduction and storage of materials and equipment and the execution of such work, and shall properly connect and coordinate the Work with the work of others. The CONTRACTOR shall do all cutting, fitting and patching of the Work that may be required to make its several parts come together properly and integrate with such other work. The CONTRACTOR shall not endanger any work of others by cutting, excavating or otherwise altering their work and will only cut or alter such other work with the written consent of the Contracting Officer. The duties and responsibilities of the CONTRACTOR under this paragraph are for the benefit of other contractors to the extent that these are comparable provisions for the benefit of the CONTRACTOR in said direct contracts between the OWNER and other contractors.
- 8.4 Defective Work by Others:
- If any part of the CONTRACTOR's Work depends for proper execution or results upon the work of any such other contractor, utility owner or the OWNER, the CONTRACTOR shall inspect and promptly report to the Contracting Officer in writing any delays, defects or deficiencies in such work that render it unavailable or unsuitable for such proper execution and results. The CONTRACTOR's failure too so report will constitute an acceptance of the other work as fit and proper for integration with CONTRACTOR's Work except for latent or nonapparent defects and deficiencies in the other work.
- 8.5 Coordination:
- If the OWNER contracts with others for the performance of other work at the site, Contracting Officer will have authority to coordinate the activities among the various prime contractors.
- ARTICLE 9 - CHANGES & DIRECTIVES
- 9.1 OWNER's Right to Change
- The OWNER reserves the right to make, at any time during the progress of the Work, without notice to Sureties and within the general scope of the Contract, such changes, deviations, additions to or deletions from the Contract Documents, including the right to alter the quantity of any item or portion of the Work as may be deemed by the OWNER to be necessary or desirable and to require such extra Work, including direction to accelerate the Work, as may be determined by the OWNER to be required for the proper completion or construction of the whole Work contemplated. Such changes shall be set forth in writing as a Change Order and shall neither invalidate the Contract nor release the Surety. CONTRACTOR agrees to perform the Work, as changed, the same as if it had been a part of the original Contract.
- 9.2 Authorization of Changes within the General Scope
- Additions, deletions, or revisions in the Work within the general scope of the Contract as specified in 9.1 shall be authorized only by Change Order.
- 9.3 Directive
- 9.3.1 The Contracting Officer shall provide written clarification or interpretation of the Contract Documents (pursuant to paragraph 3.6).
- 9.3.2 The Contracting Officer may authorize minor variations in the Work from the requirements of the Contract Documents that do not involve an adjustment in the Contract Price or the Contract Time and are consistent with the overall intent of the Contract Documents.
- 9.3.3 The Contracting Officer may order the CONTRACTOR to correct Defective Work or methods that are not in conformance with the Contract Documents.
- 9.3.4 The Contracting Officer may direct the commencement of Work, the commencement of Work under dispute, the suspension of Work or emergency related Work (as provided in paragraph 6.19).
- 9.3.5 Upon the issuance of a Directive to the CONTRACTOR by the Contracting Officer, the CONTRACTOR shall proceed with the performance of the Work as prescribed by such Directive.
- 9.3.6 If the CONTRACTOR believes that the changes noted in a Directive may cause an increase in the Contract Price or an extension of Contract Time, the CONTRACTOR shall, within 3 Working Days, provide written notice to the Contracting Officer depicting such increases before proceeding with the Directive, except in the case of an emergency. If the Contracting Officer finds the increase in Contract Price or the extension of Contract Time justified, a Change Order will be issued. If however, the Contracting Officer does not find that a Change Order is justified, the Contracting Officer may direct the CONTRACTOR to proceed with the Work. The CONTRACTOR shall cooperate with the Contracting Officer in keeping complete daily records of the cost of such Work. If a Change Order is ultimately determined to be justified, in the absence of agreed prices and unit prices, payment for such Work will be made on a cost of the Work basis.
- 9.4 Change Order
- A change in Contract Time, Contract Price, or responsibility may be made for changes within the scope of the Work only by Change Order. Upon receipt of an executed Change Order, the CONTRACTOR shall promptly proceed with the Work involved, which will be performed under the applicable Conditions of the Contract except as otherwise specifically provided. Changes in Contract Price and Contract Time shall be made in accordance with Articles 10 and 11.
- 9.5 Extra Work
- Any change that is outside the general scope of the Contract, as determined by the Contracting Officer, must be authorized by a Supplemental Agreement signed by the appropriate representatives of the OWNER and the CONTRACTOR. Extra Work performed without a signed Supplemental Agreement or Change Order shall be treated as unauthorized work.
- 9.6 Unauthorized Work:
- The CONTRACTOR shall not be entitled to an increase in the Contract Price or an extension of the Contract Time with respect to any work performed that is not required by the Contract Documents as amended, modified and supplemented as provided in this Article 9, except in the case of an emergency as provided in paragraph 6.18 and except in the case of uncovering Work.
- 9.7 Differing Site Conditions:
- 9.7.1 The CONTRACTOR shall promptly, and before such conditions are disturbed (except in an emergency as permitted by paragraph 6.18), notify the Contracting Officer in writing of: (1) subsurface or latent physical conditions at the site differing materially from those indicated in the Contract, and which could not have been discovered by a careful examination of the site, or (2) unknown physical conditions at the site, of an unusual nature, differing materially from those ordinarily encountered and generally recognized as inherent in work of the character provided for in this Contract. The Contracting Officer shall promptly investigate the condition, and if the Contracting Officer finds that such conditions do materially so differ and cause an increase or decrease in the CONTRACTOR's cost of, or time required for, performance of this Contract, an equitable adjustment shall be made and the Contract modified in writing accordingly.
- 9.7.2 Any claim for additional compensation by the CONTRACTOR under this clause shall be made in accordance with Article 15 and shall not be allowed unless the CONTRACTOR has first given the notice required by this Contract. In the event that the Contracting Officer and the CONTRACTOR are unable to reach an agreement concerning alleged differing site conditions, the CONTRACTOR will be required to keep an accurate and detailed record that will indicate the actual cost of the Work done under the alleged differing site condition. Failure to keep such a record shall be a bar to any recovery by reason of such alleged differing site conditions. The Contracting Officer shall be given the opportunity to supervise and check the keeping of such records.

This provision shall be in force for a period of time to end six (6) years after the Final Acceptance date of this Contract.

No claim by the CONTRACTOR for a change in the Contract Price shall be allowed unless claimed before Final Acceptance of this Contract.

11.1 Commencement of Contract Time; Notice to Proceed:

- The Contract Time will commence to run on the Day indicated in the Notice to Proceed. Contract completion time is specified as a fixed calendar date, in lieu of "contract time".

- 11.2 Starting the Work:
- No Work on Contract items shall be performed before the effective date of the Notice to Proceed. The CONTRACTOR shall notify the Contracting Officer at least 10 days in advance of the time actual construction operations will begin. The CONTRACTOR may request a limited Notice to Proceed after Award has been made, to permit it to order long lead materials that could cause delays in Project completion. However, granting of a limited Notice to Proceed is within the sole discretion of the Contracting Officer, and refusal or failure to grant a limited Notice to Proceed shall not be a basis for claiming for delay, extension of Contract Time, or alteration of Contract Price.

- ### 11.3 Computation of Contract Time:

- 11.3.1 When the Contract Time is specified on a Calendar Days basis, all Work under the Contract shall be completed within the number of Calendar Days specified. - #### 11.4 Contract Time Change:

The Contract Time may only be changed by a Change Order or Supplemental Agreement.

- ### 11.5 Extension Due to Delays:

SECTION 00 7000
GENERAL CONDITIONS

ARTICLE 12 - QUALITY ASSURANCE

If the CONTRACTOR is delayed or disrupted in its performance under the Contract by any of the following causes, the CONTRACTOR shall be entitled to an extension of Contract Time as its exclusive remedy. The Contractor agrees to complete the Work within the Contract Time as thus extended. Such extensions shall postpone the beginning of the time period for payment of liquidated damages by the CONTRACTOR, but they and the events producing them shall not be grounds for claims by the CONTRACTOR in damages or for additional costs, expenses, overhead or profit or other compensation.

The delays to which this Article applies, unless otherwise specified elsewhere in the Contract Documents, are unforeseeable delays due to:

- 11.5.1. Force majeure which includes war, riot, acts of God, unusually severe weather or any other cause beyond the CONTRACTOR's reasonable ability to foresee or control, whether or not similar to those enumerated.
- 11.5.2. An event that is the result of the negligence or other fault of the Owner, Contracting Officer or Project Manager.
- 11.5.3. Performance, attempted performance or delays in performance by any other contractor employed by the OWNER or their subcontractors; delays caused by any direction of the Project Manager respecting the order of precedence in the performance of the other contracts, and acts by other third parties including public and private utilities.

The CONTRACTOR shall file with the Project Manager a written request for an extension of Contract Time within 7 Calendar Days after the CONTRACTOR knows or by reasonable diligence should know, of the event causing or likely to cause delay. The request shall state the portion of the Work so delayed and shall fully state the reasons for such delay. No extension will be made for any portion of any delay occurring more than 10 Days before said request is made in writing to the Project Manager. In the case of a continuing cause of delay, only 1 request is necessary.

When such a request is received, the Project Manager will ascertain the reasons for and the extent of the delay, if any, and shall provide a finding of fact and determination to the CONTRACTOR. If the Project Manager determines that the facts justify an extension of Contract Time, the Contract will be modified by a Change Order in writing. If the Project Manager determines that the facts as reported by the CONTRACTOR do not justify an extension of Contract Time, such request will be denied in writing. The Project Manager's determination shall be final and conclusive unless the Contractor submits a Notice of Claim under the article entitled CLAIMS AND DISPUTES.

11.6 Essence of Contract:

All time limits stated in the Contract Documents are of the essence of the Contract.

11.7 Reasonable Completion Time:

It is expressly understood and agreed by and between the OWNER and the CONTRACTOR that the date of beginning and the time for Substantial Completion of the Work described herein are reasonable times for the completion of the Work.

11.8 Delay Damages:

Whether or not the CONTRACTOR's right to proceed with the Work is terminated, the CONTRACTOR and its Sureties shall be liable for damages resulting from CONTRACTOR's refusal or failure to complete the Work within the specified time.

Liquidated damages for delay shall be paid by the CONTRACTOR or its Surety to the OWNER in the amount(s) stipulated in Supplementary Conditions 00800 for each Calendar Day the completion of the Work or any part thereof is delayed beyond the time required by the Contract, or any extension thereof. The CONTRACTOR stipulates and agrees that the liquidated damages established herein are not a penalty but rather constitute an estimate of damages that the OWNER will sustain by reason of delayed completion. These liquidated and actual damages are intended as compensation for losses anticipated to arise. These damages will continue to run both before and after termination in the event of default termination. These liquidated damages do not cover excess costs of completion or OWNER costs, fees, and charges related to reprocurement. If a default termination occurs, the CONTRACTOR or its Surety shall pay in addition to these damages, all excess costs and expenses related to completion as provided by Article 14.2.3.

12.1 Warranty and Guaranty:

The CONTRACTOR warrants that all Work will be in accordance with the Contract Documents and will not be Defective. Prompt notice of all defects shall be given to the CONTRACTOR. All defective work, whether or not in place, may be rejected, corrected, or accepted as provided for in this Article.

12.1.1 General Provisions

- a. Neither the final payment nor any provision in the Contract Documents nor partial or entire occupancy of the Project by the OWNER shall constitute acceptance of Work not performed in accordance with the Contract Documents, or operate to relieve the CONTRACTOR of liability with respect to any responsibilities for faulty materials or workmanship. In addition to any other warranties in this Contract, the CONTRACTOR shall remedy any defects in the Work that appear within a period of 1 year after the date this warranty period commences unless a longer period is specified and shall pay for any damage to other work resulting from defective work or from efforts to repair defective Work. The OWNER shall give notice of observed defects with reasonable promptness.
- b. The warranty period shall commence at Substantial Completion, as evidenced by the OWNER's written notice. The warranty period shall commence only as to those items of Work that are substantially complete as of the date of beneficial occupancy. The CONTRACTOR shall make all required arrangements with Suppliers of equipment and materials for the Project to enable all manufacturer and Supplier warranties to remain in force during the warranty period at a minimum.
- c. The CONTRACTOR, when notified by the OWNER of a defect in the Work within the warranty period, shall immediately, and at no cost to the OWNER, place in satisfactory condition all defective Work. The CONTRACTOR's warranty with respect to Work repaired or replaced will extend for one year from the date of the repair or replacement.
- d. If the CONTRACTOR fails to remedy any failure, defect, or damage within a reasonable time after receipt of notice, the OWNER shall have the right to replace, repair or otherwise remedy the failure, defect, or damage at the CONTRACTOR's expense.

12.2 Access to Work:

The OWNER and the OWNER's representatives, testing agencies and governmental agencies with jurisdiction interests will have access to the Work at reasonable times for their observation, inspecting and testing. The CONTRACTOR shall provide proper and safe conditions for such access.

12.3 Tests and Inspections:

- 12.3.1 The CONTRACTOR shall give the Contracting Officer timely notice of readiness of the Work for all required inspections, tests or approvals.
- 12.3.2 If Regulatory Requirements of any public body having jurisdiction require any work (or part thereof) to specifically be inspected, tested or approved, the CONTRACTOR shall assume full responsibility therefore, pay all costs in connection therewith and Furnish the Contracting Officer the required certificates of inspection, testing or approval. The CONTRACTOR shall also be responsible for and shall pay all costs in connection with any inspection or testing required in connection with OWNER's acceptance of a Supplier of materials or equipment proposed to be incorporated in the Work, or of

	materials or equipment submitted for approval prior to the CONTRACTOR's purchase thereof for incorporation in the Work. The cost of all inspections, tests and approvals in addition to the above which are required by the Contract Documents shall be paid by the CONTRACTOR. The OWNER may perform additional tests and inspections that it deems necessary to insure quality control. All such failed tests or inspections shall be at the CONTRACTOR's expense. OWNER shall pay for all special inspections required by the IBC Chapter 17.	stored elsewhere, the CONTRACTOR shall allow the Contracting Officer and his authorized representative such access to the site as may be necessary to enable the Contracting Officer to exercise the rights and remedies under this paragraph. All direct, indirect and consequential costs of the OWNER in exercising such rights and remedies will be charged against the CONTRACTOR, and a Change Order will be issued incorporating the necessary revisions in the Contract Documents with respect to the Work; and the OWNER shall be entitled to an appropriate decrease in the Contract Price. Such direct, indirect and consequential costs will include, but not be limited to, fees and charges of engineers, architects, attorneys and other professionals, all court and arbitration costs and all costs of repair and replacement of work of others destroyed or damaged by correction, removal or replacement of the CONTRACTOR's Defective Work. The CONTRACTOR shall not be allowed an extension of the Contract Time because of any delay in performance of the Work attributable to the exercise by the Contracting Officer of the OWNER's rights and remedies hereunder.
12.3.4	If any Work (including the work of others) that is to be inspected, tested or approved is covered without written concurrence of the Contracting Officer, that Work must, if requested by the Contracting Officer, be uncovered for observation. Such uncovering shall be at the CONTRACTOR's expense unless the CONTRACTOR has given the Contracting Officer timely notice of CONTRACTOR's intention to cover the same and the Contracting Officer has not acted with reasonable promptness in response to such notice.	
12.3.5	Neither observations nor inspections, tests or approvals by the OWNER or others shall relieve the CONTRACTOR's obligations to perform the Work in accordance with the Contract Documents.	
12.4	OWNER May Stop the Work: If the Work is Defective, or the CONTRACTOR fails to supply suitable materials or equipment, or fails to Furnish or perform the Work in such a way that the completed Work will conform to the Contract Documents, the Contracting Officer may order the CONTRACTOR to stop the Work, or any portion thereof, until the cause for such order has been eliminated; however, this right of the Contracting Officer to stop the Work shall not give rise to any duty on the part of the Contracting Officer to exercise this right for the benefit of the CONTRACTOR or any other party.	ARTICLE 13 - PAYMENTS TO CONTRACTOR AND COMPLETION
12.5	Correction or Removal of Defective Work: If required by the Contracting Officer, the CONTRACTOR shall promptly, as directed, either correct all Defective Work, whether or not fabricated, Installed or completed, or, if the Work has been rejected by the Contracting Officer, remove it from the site and replace it with Work that conforms to the requirements of the Contract Documents. The CONTRACTOR shall bear all direct, indirect and consequential costs of such correction removal (including but not limited to fees and charges of engineers, architects, attorneys and other professionals) made necessary thereby.	13.1 Application for Progress Payment: The CONTRACTOR shall submit to the Contracting Officer for review a Request for Payment filled out and signed by the CONTRACTOR covering the Work completed as of the date of the Request for Payment and accompanied by such supporting documentation as is required by the Contract Documents. Progress payments will be made as the Work progresses on a monthly basis.
12.6	Acceptance of Defective Work Instead of requiring correction or removal and replacement of Defective Work, the Contracting Officer may accept Defective Work, the CONTRACTOR shall bear all direct, indirect and consequential costs attributable to the Contracting Officer's evaluation of and determination to accept such Defective Work (costs to include but not be limited to fees and charges of engineers, architects, attorneys and other professionals). If any such acceptance occurs prior to final payment, a Change Order will be issued incorporating the necessary revisions in the Contract Documents with respect to the Work; and the OWNER shall be entitled to an appropriate decrease in the Contract Price. If the OWNER has already made final payment to the CONTRACTOR, an appropriate amount shall be paid by the CONTRACTOR or its Surety to the OWNER.	13.2 Review of Applications for Progress Payment: Contracting Officer will either indicate in writing a recommendation of payment or return the Request for Payment to the CONTRACTOR indicating in writing the Contracting Officer's reasons for refusing to recommend payment. In the latter case, the CONTRACTOR may make the necessary corrections and resubmit the Request for Payment.
12.7	OWNER May Correct Defective Work: If the CONTRACTOR fails within a reasonable time after written notice from the Contracting Officer to proceed to correct Defective Work or to remove and replace rejected Work as required by the Contracting Officer in accordance with paragraph 12.5 or if the CONTRACTOR fails to perform the Work in accordance with the Contract Documents, or if the CONTRACTOR fails to comply with any other provision of the Contract Documents, the OWNER may, after seven days' written notice to the CONTRACTOR, correct and remedy any such deficiency. The cost of corrective action shall be born by the CONTRACTOR or its Surety. To the extent necessary to complete corrective and remedial action, the Contracting Officer may exclude the CONTRACTOR from all or part of the site, take possession of all or part of the Work, and suspend the CONTRACTOR's services related thereto, take possession of the CONTRACTOR's tools, appliances, construction equipment and machinery at the site and incorporate in the Work all materials and equipment stored at the site or approved remote storage sites or for which the OWNER has paid the CONTRACTOR but which are	13.3 Stored Materials and Equipment: If payment is requested on the basis of materials and equipment not incorporated in the Work but delivered and suitably stored at the site or at another location agreed to in writing, the Request for Payment shall also be accompanied by a bill of sale, paid invoice or other documentation warranting that the OWNER has received the materials and equipment free and clear of all charges, security interests and encumbrances and evidence that the materials and equipment are covered by appropriate property insurance and other arrangements to protect the OWNER's interest therein, all of which will be satisfactory to the Contracting Officer. No payment will be made for perishable materials that could be rendered useless because of long storage periods. No progress payment will be made for living plant materials until planted.

The OWNER may terminate the services of the CONTRACTOR, exclude the CONTRACTOR from the site and take possession of the Work and of all the CONTRACTOR's tools, appliances, construction equipment and machinery at the site and use the same to the full extent they could be used by the CONTRACTOR (without liability to the CONTRACTOR for trespass or conversion), incorporate in the Work all materials and equipment stored at the site or for which the OWNER has paid the CONTRACTOR but which are stored elsewhere, and finish the Work as the OWNER may deem expedient. The OWNER may enter into an agreement for the completion of said Contract according to the terms and provisions thereof, or use such other methods that in the opinion of the Contracting Officer are required for the completion of said Contract in an acceptable manner.
ARTICLE 14 - SUSPENSION OF WORK, DEFAULT AND TERMINATION			
14.1	OWNER May Suspend Work		
	14.1.1 The OWNER may, at any time, suspend the Work or any portion thereof by notice in writing to the CONTRACTOR. If the Work is suspended without cause the CONTRACTOR shall be allowed an increase in the Contract Price or an extension of the Contract Time, or both, directly attributable to any suspension if the CONTRACTOR makes an Approved claim therefore as provided in Article 15. However, no adjustment shall be made under this clause for any suspension, delay, or interruption to the extent that suspension is due to the fault or negligence of the CONTRACTOR, or that suspension is necessary for Contract compliance, or that performance would have been so suspended, delayed, or interrupted by any other cause, including the fault or negligence of the CONTRACTOR.		
	14.1.2 In case of suspension of Work, the CONTRACTOR shall be responsible for preventing damage to or loss of any of the Work already performed and of all materials whether stored on or off the site or approved remote storage sites.	14.2.3	If the Contract is terminated for default, the CONTRACTOR shall be liable for damages for delay as provided by Article 11.8, and for the excess cost of completion, and all costs and expenses incurred by the OWNER in completing the Work, including but not limited to costs of assessing the Work to be done, costs associated with advertising, soliciting or negotiating for bids or Proposals for completion, and other procurement costs. Following termination the CONTRACTOR shall not be entitled to receive any further balance of the amount to be paid under the Contract until the Work is fully finished and accepted, at which time if the unpaid balance exceeds the amount due the OWNER and any amounts due to persons for whose benefit the OWNER has withheld funds, such excess shall be paid by the OWNER to the CONTRACTOR. If the damages, costs, and expenses due the OWNER exceed the unpaid balance, the CONTRACTOR and its Surety shall pay the difference.
14.2	Default of Contract		
	14.2.1 If the CONTRACTOR:	14.2.4	If, after notice of termination of the CONTRACTOR's right to proceed under the provisions of this clause, it is determined for any reason that the CONTRACTOR was not in default under the provisions of this clause or that the delay was excusable under the provisions of this clause, or that termination was wrongful, the rights and obligations of the parties shall be determined in accordance with the clause providing for convenience termination.

	d. Discontinues the prosecution of the Work, or		
	e. Fails to resume Work that has been discontinued within a reasonable time after notice to do so, or		
		14.3	Rights or Remedies:

SECTION 00 7000 GENERAL CONDITIONS

Where the CONTRACTOR's services have been so terminated by the OWNER, the termination will not affect any rights or remedies of the OWNER against the CONTRACTOR then existing or that may thereafter accrue. Any retention or payment of moneys due the CONTRACTOR by the OWNER will not release the CONTRACTOR from liability.

14.4 Convenience Termination:

14.4.1 The performance of the Work may be terminated by the OWNER in accordance with this section in whole or in part, whenever, for any reason the Contracting Officer shall determine that such termination is in the best interest of the OWNER. Any such termination shall be effected by delivery to the CONTRACTOR of a "Notice of Termination", specifying termination is for the convenience of the OWNER the extent to which performance of Work is terminated, and the date upon which such termination becomes effective.

Immediately upon receipt of a "Notice of Termination" and except as otherwise directed by the Contracting Officer, the CONTRACTOR shall:

- a. Stop Work on the date and to the extent specified in the "Notice of Termination";
- b. Place no further orders or subcontracts for materials, services, or facilities except as may be necessary for completion of such portion of the Work as is not terminated;
- c. Terminate all orders and subcontracts to the extent that they relate to the performance of Work terminated by the "Notice of Termination";
- d. With the written Approval of the Contracting Officer, to the extent he may require, settle all outstanding liabilities and all claims arising out of such termination of orders and subcontracts, the cost of which would be reimbursable, in whole, or in part, in accordance with the provisions of the Contract;
- e. Submit to the Contracting Officer a list, certified as to quantity and quality, of any or all items of termination inventory exclusive of items the disposition of which had been directed or authorized by the Contracting Officer;
- f. Transfer to the Contracting Officer the completed or partially completed record Drawings, Shop Drawings, information, and other property that if the Contract had been completed, would be required to be Furnished to the OWNER;
- g. Take such action as may be necessary, or as the Contracting Officer may direct, for the protection and preservation of the property related to the Contract that is in the possession of the CONTRACTOR and in which the OWNER has or may acquire any interest.

The CONTRACTOR shall proceed immediately with the performance of the above obligations.

14.4.2 When the OWNER orders termination of the Work effective on a certain date, all Work in place as of that date will be paid for in accordance with Article 13 of the Contract. Materials required for completion and on hand but not incorporated in the Work will be paid for at invoice cost plus 15% with materials becoming the property of the OWNER - or the CONTRACTOR may retain title to the materials and be paid an agreed upon lump sum. Materials on order shall be cancelled, and the OWNER shall pay reasonable factory cancellation charge with the option of taking delivery of the materials in lieu of payment of cancellation charges. The CONTRACTOR shall be paid 10% of the cost, freight not included, of materials cancelled, and direct expenses only for CONTRACTOR chartered freight transport that cannot be cancelled without charges, to the extent

that the CONTRACTOR can establish them. The extra costs due to cancellation of bonds and insurance and that part of job start-up and phase-out costs not amortized by the amount of Work accomplished shall be paid by the OWNER. Charges for loss of profit or consequential damages shall not be recoverable except as provided above.

14.4.3 The termination claim shall be submitted promptly, but in no event later than 90 days from the effective date of termination, unless one or more extensions in writing are granted by the Contracting Officer upon request of the CONTRACTOR made in writing within the 90 Day period. Upon failure of the CONTRACTOR to submit its termination claim within the time allowed, the Contracting Officer may determine, on the basis of information available to him, the amount, if any, due to the CONTRACTOR by reason of the termination and shall thereupon pay to the CONTRACTOR so determined.

14.4.4 The CONTRACTOR and the Contracting Officer may agree upon whole or any part of the amount or amounts to be paid to the CONTRACTOR by reason of the total or partial termination of Work pursuant to this section. The Contract shall be amended accordingly, and the CONTRACTOR shall be paid the agreed amount.

In the event of the failure of the CONTRACTOR and the Contracting Officer to agree in whole or in part, as provided heretofore, as to the amounts with respect to costs to be paid to the CONTRACTOR in connection with the termination of the Work the Contracting Officer shall determine, on the basis of information available to him, the amount, if any, due to the CONTRACTOR by reason of the termination and shall pay to the CONTRACTOR the amount determined as follows:

- a. All costs and expenses reimbursable in accordance with the Contract not previously paid to the CONTRACTOR for the performance of the Work prior to the effective date of the "Notice of Termination";
- b. So far as not included under "a" above, the cost of settling and paying claims arising out of the termination of the Work under subcontracts or orders that are properly chargeable to the terminated portions of the Contract;
- c. The reasonable costs of settlement with respect to the terminated portion of the Contract heretofore, to the extent that these costs have not been covered under the payment provisions of the Contract.

14.4.5 The CONTRACTOR shall have the right of appeal under the OWNER's claim procedures as defined in Article 15, for any determination made by the Contracting Officer, except if the CONTRACTOR has failed to submit its claim within the time provided and has failed to request extension of such time, CONTRACTOR shall have no such right of appeal. In arriving at the amount due the CONTRACTOR under this section, there shall be deducted:

- a. All previous payments made to the CONTRACTOR for the performance of Work under the Contract prior to termination;
- b. Any claim for which the OWNER may have against the CONTRACTOR;
- c. The agreed price for, or the proceeds of sale of, any materials, supplies, or other things acquired by the CONTRACTOR or sold pursuant to the provisions of this section and not otherwise recovered by or credited to the OWNER; and,
- d. All progress payments made to the CONTRACTOR under the provisions of this section.

14.4.6 Where the Work has been terminated by the OWNER said termination shall not affect or terminate any of the rights of the OWNER against the CONTRACTOR

or its Surety then existing or that may thereafter accrue because of such default. Any retention or payment of monies by the OWNER due to the CONTRACTOR under the terms of the Contract shall not release the CONTRACTOR or its Surety from liability.

Unless otherwise provided for in the Contract Documents, or by applicable statute, the CONTRACTOR, from the effective date or termination and for a period of three years after final settlement under this Contract, shall preserve and make available to the OWNER at all reasonable times at the office of the CONTRACTOR, all its books, records, documents, and other evidence bearing on the cost and expenses of the CONTRACTOR under its Contract and relating to the Work terminated hereunder.

15.6 Integrated Contract

This is an integrated contract. If any provision of this Contract is found to be illegal, all other provisions shall be given full force and effect.

END OF SECTION

If the matter cannot be resolved by agreement within 7 days, the CONTRACTOR shall, within the next 14 days, submit an "Intent to Claim" in writing. The Project Manager reserves the right to make written request to the CONTRACTOR at any time for additional information that the CONTRACTOR may possess relative to the claim. The CONTRACTOR agrees to provide the Project Manager such additional information within 30 days of receipt of such a request. Failure to Furnish such additional information may be regarded as a waiver of the claim. The claim, if not resolved by agreement within 60 days of its receipt, will automatically be forwarded to the Contracting Officer for formal written decision.

The CONTRACTOR will be furnished the Contracting Officer's decision within the next 90 days, unless additional information is requested by the Contracting Officer. **SECTION 01 0100
SUMMARY OF WORK**

PART 1 - GENERAL

1.1 WORK COVERED BY CONTRACT DOCUMENTS

Project is an exterior siding replacement for an existing Alaska State Court System Admin. office building in downtown Anchorage, Alaska

This building has had a number of additions and renovations since a small original part was built in the 1940's. The building is referenced in various old documents as having four zones (a, b1, b2, and c) which loosely correspond to the original building and major additions. The building structure is largely CMU and cast in place concrete w/some steel & wood framed elements, such as interior partitions and floor & ceiling structure. The siding getting replaced is believed to have been installed in the 1970s, with modifications to the fascias & copings in the early 2000's.

Base bid:

- Demolition of existing north side's siding, signage, and punched opening windows, down to bare supporting walls (largely CMU).
 1. Existing walls have combination of pebble-embossed stucco on metal lathe & furring, painted CMU, & blue mosaic tile. (see demo elevations.)
- Re-siding w/ new air barrier, furring, continuous insulation, & either 12x12 stacked bond porcelain tile or laminated phenolic resin panels, depending on which part of the wall it is (see new elevations.)
- Adding a cast-in-place concrete curb at the sidewalks.
- Adding a new decorative state of Alaska map shaped sign feature & new led lit letter signage.
- Replacing the existing aluminum-framed curtain walls and entry door w/ new.
- Includes wrapping approx 6' of east side w/ new siding.
- Replacing (2) wall mounted flagpoles w/ (2) new flagpoles in planter area
- No substantial increase in siding loads.
- No substantial mechanical or electrical work other than remove and replace & adding new exterior decorative led lit sign letters
- No interior work except as needed to patch & repair disruption caused by exterior work.

Additive Alternate #1:

- Re-siding the 1-story tall portion of the east side of the building with same phenolic resin panels & concrete curb.
- Replacing the windows along this wall.

Because this is a level 1 alteration per the 2018 IEBC, it is anticipated that there will be minimal life-safety plan review needed.

A building permit may be required by the Municipality of Anchorage, as well as possibly separate right-of-way, demolition & electrical work permits. Contractor is responsible for attaining all required permits & work authorizations.

Shutting down of streets, alleys, or sidewalks in the right-of-way or on private property requires careful coordination with the owner(s) & the proper city departments having jurisdiction, as well as possibly the state of Alaska DOT, which owns & maintains many of the downtown anchorage streets. Contractor responsible for coordinating right-of-way, sidewalk, & street work.

There is limited-to-none area on the property available for lay down of materials or staging, or contractor employee parking. Contractor to devise a material delivery and disposal plan coordinated w/ the owner.

This project will have no changes to:

- Building heights, areas, or setbacks
- Building construction class (type VP)
- Occupancy type (B-business),
- Occupant load,
- fire ratings,
- Automatic fire suppression,
- Plumbing fixture counts,
- Accessibility,
- Or parking count

For this reason, a full code analysis has not been performed, and no code/life safety plans are included. Code notes are included on certain sheets for information only.
