

**STATE OF ALASKA**  
**DEPARTMENT OF NATURAL RESOURCES**  
**Division of Mining, Land and Water**

**APPLICATION FOR EASEMENT**  
**AS 38.05.850**

ADL# 234685  
(to be filled in by State) [REDACTED]

Applications that are submitted with unfilled sections or inadequate explanation and/or without application fees, a location figure and/or a completed Division of Mining, Land and Water (DMLW) Environmental Risk Questionnaire will be deemed incomplete. Incomplete applications will be returned without review. See DMLW's current fee regulations (11 AAC 05) and associated Director's Fee Order for applicable non-refundable fee amounts. The filing of an application does not guarantee processing or approval of the requested authorization.

Applicant: AMERICAN BROADBAND Doing Business As: INTERIOR TELEPHONE COMPANY  
Agent: (If applicable, attach record of authorization to represent) Eric A. Smith or Dan Simenski  
Mailing Address: 201 EAST 56TH AVENUE Email: esmith@fastwyre.com  
City/State/Zip: ANCHORAGE, ALASKA 99518  
Primary Phone: Eric: 913.832.7336 Alternate Phone: Dan: 907.362.3446  
General Location: 60.252307°, -149.359833° off Seward HWY Municipality: KENAI PENINSULA BUROUGH  
Section(s): 24 Township: 2N Range: 1W Meridian: SEWARD  
Section(s): 19 Township: 2N Range: 1W Meridian: SEWARD

Attach a location figure, plan drawing or survey that shows the detailed location of the requested easement in relation to adjoining property boundaries and reference points. All features must be labeled.

Dimensions requested (Complete line 1 for a linear easement or line 2 for an easement with an irregular shape):

1. Length: (feet) 6328 Width: (feet) 30'  
2. Area: 4.85 Are units in ☐ square feet or ☒ acres? (check one)

Term requested and rationale: Indefinite

Are you applying for a ☒ public or a ☐ private easement? (check one) Rationale:

Interior Telephone Company is a public utility per RCA certificate of Public Convenience and Necessity No. 165.

Development plan summary/specific purpose of easement: (e.g., electric utility, fiber optic cable, road, bridge, airstrip/airport, driveway, trail, drainage) This information will be used to determine the scope of use of the easement.  
Beginning at a new adjacent CEA utility pole T-126 w/ handholes, underground conduit and fiber optic cable for public utility.

Easement Application Form 102-112 (Rev. 09/23)

Page 1 of 2

Is this an existing use? ☐ Yes ☒ No. If yes, explain extent and duration of use to date:

Describe plans for initial construction. Be detailed. Include a list of authorizations for portions of the project that are proposed for construction on adjoining lands, other permitting, and/or third-party non-objections: (Use extra sheets as needed)

ROUTE CONTINUES UNDERGROUND FROM AN EXISTING UTILITY POLE (#T126) WITHIN THE SEWARD HWY POLELINE, TRAVELING NORTH APPROX. 8875', WHERE IT TRANSITIONS SOUTH DOWN THE TRAIL (ACCESS RT. A-4) APPROX. 1807' TO A NEW HANDHOLE LOCATED AT COORDINACE (APPROX. 60.251585, -149.354056) ROUTE THEN TRANSITIONS EAST WITHIN THE AKDOT ROW.

PERMITS FOR AKDOT AND ALASKA RR HAVE BEEN SUBMITTED.

Anticipated construction timeframe: 05/01/2026 - 11/30/2026

If this authorization is granted, I agree to construct and maintain the authorized improvements in an acceptable manner, and to keep the area in a neat and sanitary condition; to comply with all the laws, rules, and regulations pertaining thereto; and provided further that upon termination of the easement for which application is being made, I agree to remove or relocate the improvements and restore the area without cost to the State and to the satisfaction of DMLW.

This form must be filled out completely and submitted with the applicable fees. Failure to do so will result in a delay in processing. AS 38.05.035(a) authorizes the director to decide what information is needed to process an application for the sale or use of state land and resources. This information is made a part of the state public land records and becomes public information under AS 40.25.110 and 40.25.120 (unless the information qualifies for confidentiality under AS 38.05.035(a)(8) and confidentiality is requested, AS 43.05.230, or AS 45.48). Public information is open to inspection by you or any member of the public. A person who is the subject of the information may challenge its accuracy or completeness under AS 44.99.310, by giving a written description of the challenged information, the changes needed to correct it, and a name and address where the person can be reached. False statements made in an application for a benefit are punishable under AS 11.56.210.

In submitting this form, the applicant certifies that he or she has not changed the original text of the form or any attached documents provided by the Division. In submitting this form, the applicant agrees with the Department to use "electronic" means to conduct "transactions" (as those terms are used in the Uniform Electronic Transactions Act, AS 09.80.010 – AS 09.80.195) that relate to this form and that the Department need not retain the original paper form of this record: the department may retain this record as an electronic record and destroy the original.

**APPLICANT ENVIRONMENTAL RISK QUESTIONNAIRE**

ADL # 234685 (assigned by DNR) Date 05.21.2026

Applicant (should match business license) Interior Telephone Company

Mailing Address 201 East 56th Avenue

City/State/Zip Anchorage, AK 99518 Email esmith@fastwyre.com

Primary Phone 913.832.7336 Secondary Phone \_\_\_\_\_

Does the applicant have a current Alaska business license? ☒ Yes ☐ No License # 6654

Type of license (partnership, LLC, corporation, etc.)? CORPORATION

Describe the proposed use of and activity on the state land:

ROUTE CONTINUES UNDERGROUND FROM AN EXISTING UTILITY POLE (#T126) WITHIN THE SEWARD HWY POLELINE, TRAVELING NORTH APPROX. 8875', TO A NEW HANDHOLE LOCATED AT COORDINANCE (APPROX. 60.254938, -149.35757). ROUTE WILL CONTINUE NORTH. ROUTE WILL TRANSITION SOUTHEAST DOWN THE TRAIL (ACCESS RT. A-4) APPROX. 1807' TO A NEW HANDHOLE LOCATED AT COORDINANCE (APPROX. 60.251585, -149.354056) ROUTE THEN TRANSITIONS EAST WITHIN THE AKDOT ROW.

In the course of your proposed activity will you generate, use, store, transport, dispose of, or otherwise come in contact with toxic and/or hazardous materials, and/or hydrocarbons? ☐ Yes ☒ No. If yes, please list the substances and the associated quantities. Use a separate sheet of paper if necessary.

---

---

---

---

---

---

If the proposed activities involve any storage tanks, either above or below ground, address the following questions for each tank. Please use a separate sheet of paper, if necessary, and, where appropriate, include maps or plats:

a) Where will the tank be located?

N/A

b) What will be stored in the tank?

N/A

c) What will the tank's size be in gallons?

N/A

d) What will the tank be used for? (Commercial or residential purposes?)

N/A

e) Will the tank be tested for leaks? ☐ Yes ☐ No

f) Will the tank be equipped with secondary containment? ☐ Yes ☐ No. If yes, describe:

N/A

g) Will the tank be equipped with leak detection devices? ☐ Yes ☐ No. If yes, describe:

N/A

Do you know or have any reason to suspect that the site may have been previously contaminated? ☐ Yes ☒ No.  
If yes, please explain:

I certify that due diligence has been exercised and proper inquiries made in completing this questionnaire, and that the foregoing is true and correct to the best of my knowledge.

## **INSTRUCTIONS FOR COMPLETING A DEVELOPMENT PLAN**

A development plan is a written statement (narrative) and a sketch or blueline drawing describing the proposed use and development of state land. The information contained in a development plan is needed to provide a complete review of the application and the proposed use and development, and helps to determine the terms and conditions of the authorization and the level of bonding and insurance that may be required.

Most applications submitted to the Division of Mining, Land and Water must have an attached development plan. The few exceptions to this rule include applications for state land sales and some types of land use permit. The amount and type of information included in the development plan will depend on the proposed use and level of development. Insufficient information in the development plan and/or application or failure to provide a development plan may result in a delay in processing the application. If you are unsure whether your application will require a development plan, contact the regional office responsible for managing the area you are planning to use (regional office addresses and phone numbers are shown at the top of this sheet).

If the application is approved, the approved development plan becomes a part of the authorization document. Authorized activities are limited to those described in the development plan and/or authorization document. The development plan must be updated if changes to an approved project are proposed before or during the project's siting, construction, or operation; if any additional structures, buildings, or improvements are proposed; or if there is a change in activity that was not addressed during consideration of the application. Please note that these development plans or plan changes must be approved by the Division of Mining, Land and Water before any change occurs in use, construction, or activity. Conducting activities that are not authorized by the development plan and authorization document could result in revocation and termination of the authorization and/or other appropriate legal action.

- I. **General Guidelines for Preparing a Development Plan** For new authorizations, the development plan must show the proposed improvements and/or use areas, as well as preconstruction plans. For existing authorizations without a current development plan or if the development plan is being updated, the plan must show existing improvements and/or use areas, etc., and any known future changes. The development plan must include:
  - **Maps:** a USGS map at a scale of at least 1:63,360 showing the location of the proposed project; a blueline drawing or sketch, drawn to scale (the attached diagram may be used); and
  - **Written Project description:** a detailed written description (narrative) of the intended use and level of development planned under the authorization and an explanation of the sketch or blueline drawing.

- II. **Land Use Permits** Permanent improvements cannot be authorized by a land use permit. However, a development plan accompanying a land use permit application must describe nonpermanent structures and activities. (Nonpermanent structures are structures that can be easily and quickly taken down and removed from the site, without any significant disturbance or damage to the area.) Several of the specific development plan items listed below will not apply to activities authorized under a land use permit; those items that do apply should be described in as much detail as possible, to enable prompt review of the application. If the proposed land use permit activity is of a mobile nature, such as a permit to move heavy equipment across state land, a development plan is not required; but a map showing the proposed route of travel is required. If the impact would not have a significant effect on the environment, such as a permit to harvest wild produce, a development plan is not required, but a map showing the location of the proposed harvest area is required.
- III. **Narrative portion of the development plan** Describe the type of activities or development planned for the site; specify if any facilities are intended for commercial use, or will be rented out; and provide a description and explanation of the items shown on the sketch or blueline. Following is a list of specific information to be included in the narrative, if applicable to the proposed project:
- **Legal description.** Provide a legal description of the parcel, i.e. a metes and bounds description, survey, lot and block, aliquot part, or other legal description.
  - **Terrain/ground cover.** Describe the existing terrain/ground cover, and proposed changes to the terrain/ground cover.
  - **Access.** Describe existing and planned access, and mode of transportation. If public access is to be restricted, define possible alternative public access routes.
  - **Buildings and other structures.** Describe each building or structure, whether permanent or temporary, including a description of the foundation as well as the building and floor construction; the date when the structure is to be constructed or placed on the parcel; the duration of use; and what activities are to occur within each structure.
  - **Power source.** Describe type and availability of power source to the site.
  - **Waste types, waste sources, and disposal methods.** List the types of waste that will be generated on-site, including solid waste, the source, and method of disposal.
  - **Hazardous substances.** Describe the types and volumes of hazardous substances present or proposed, the specific storage location, and spill plan and spill prevention methods. Describe any containment structure(s) and volume of containment structure(s), the type of lining material, and configuration of the containment structure. Provide Material Safety Data Sheets (MSDS).
  - **Water supply.** Describe the water supply and wastewater disposal method.
  - **Parking areas and storage areas.** Describe long-term and short-term parking and storage areas, and any measures that will be taken to minimize drips or spills from leaking vehicles or equipment. Describe the items to be stored in the storage areas.
  - **Number of people using the site.** State the number of people employed and working on the parcel, and describe the supervisor/staff ratio. Estimate the number of clients that will be using the site.
  - **Maintenance and operations.** Describe the long-term requirements, how they will occur and who will perform the work. Specify if any subcontractors will be involved, and explain the tasks they will perform.
  - **Closure/reclamation plan.** Provide a closure/reclamation plan, if required for the type of authorization being applied for, e.g. material sale.
- IV. **Sketch or blueline portion of the development plan** The sketch or blueline must be drawn to scale, and each item labeled in such a way that the information contained in the drawing can be located in the narrative portion of the development plan (professional quality drafting and mechanical lettering is preferred). Following is a list of information to be shown on the drawing, if applicable:

- Section, Township, and Range lines; North arrow; scale; title; and legend (attached is an acceptable format).
- All property boundaries, ordinary or mean high water lines, and existing or proposed rights-of-way; major topographic features such as roads, streams, rivers, and lakes, and their geographic names.
- Location and dimensions of any gravel pads, or cement foundations, buildings, and other structures and improvements, appropriately labeled.
- Location of any buried or above-ground utility lines (power, water, fuel, natural gas, etc.); sewage facilities, including sewage and wastewater outfall point; underground water system; and water source (if any).
- Location where any hazardous substances, including but not limited to oil, lubricants, fuel oil, gasoline, solvents, and diesel fuel, are stored. Method of storage (tank, drum, etc.).
- Location of parking areas, and areas for the storage of inactive vehicles; snow storage areas; storage areas for any other items not mentioned above (drill rigs, camps, pipe, watercraft, etc.).
