RE: **Project Name:** BAAF – 47427 Hangar 6 – Roof and Envelope Replacement
 Project Number: 02A7026001
 Project Location(s): Bryant Airfield, Joint Base Elmendorf-Richardson, Alaska

Addendum # Two (2)

This addendum forms a part of the contract documents and modifies the original drawings and/or specifications for the subject work. In case of conflicts between this addendum and previously issued documents, this addendum shall take precedence.

The following administrative changes have been made to this ITB:

1. This addendum is being issued to change the project completion date from December 31, 2027, to September 30, 2027.

Questions and Answers:

1. Can we get full access to the hanger during construction?
A. The hangar must have a minimum of 50% usability at all times.
2. Please send the base access request form, or advise what additional information you need, including whether you need vehicle details in advance.
A. Only information that is needed is First and Last name of individuals needing access to attend the walk through.

3. Please confirm where the group is to meet and at which gate, and whether an escort is provided from the gate to the building. The scope of work states only that the location for initial roof access will be shown on site.
 - A. Individuals will meet at Hangar 6. See map below for general directions (second shown route is not usable).

4. Please confirm that base passes are issued at the Ft. Richardson Visitor Center and that our names will be placed on the 72-hour log there.
 - A. Correct. Individuals that requested base access will have their names put on the 72-hour log at the Fort Richardson Visitor Center. Individuals will be able to pick their passes up Wednesday, September 2, 2026 as early as 8:00am.

Please contact me if you have any questions.

Sincerely,
