Issue Date: October 22, 2026

ATTN: Vendors

**RE:** **Project Name:** BAAF – 47430 Hangar 1 – Roof and Envelope Project
**Project Number:** 02A7026003
**Project Location:** JBER, Alaska

**Addendum # Nine (9)**

This addendum forms a part of the contract documents and modifies the original drawings and/or specifications for the subject work. In case of conflicts between this addendum and previously issued documents, this addendum shall take precedence.

**The following administrative changes have been made to this ITB:**

1. The bid due date for this ITB has been **extended from October 27th, 2026 to November 3rd, 2026 before 1:00pm Alaska Time.**

**The following clarification has been made to ensure there is no confusion with the intended scope:**

1. Addendum 7, Question 2 stated, “Per the ITB the Contractor must adhere to all applicable UFC and OSHA requirements so a fall protection system will be required.” Just for clarity, a permanent fall-protection system for future roof maintenance will not be required. Simply an OSHA complaint fall protection system during construction will be required.

Respectfully,

Scott M. Higbee
Building Management Specialist
