Questions submitted by potential offerors and answers from the state:

Question 1: "Are subcontractors allowed for this opportunity?"

Answer: Yes. **SEC. 3.09** - Subcontractors may be used to perform work under this contract. If an offeror intends to use subcontractors, the offeror must identify in the proposal the names of the subcontractors and the portions of the work the subcontractors will perform.

Question 2: "How many grants will the contractor be expected to support and manage reporting and compliance for?"

Answer: The Highway Safety Office has around 50 grants that are mostly handled in house for grant administration. Staffing limitations may lead us to relying more on contracted support for grant management. The Annual Grant Application submittal to NHTSA (August) and the Annual Report (January) are typically prepared by the contractor.

Question 3: "How many federal programs will require reporting and compliance services?"

Answer: This RFP is just for our NHTSA funded grant programs.

Question 4: "Are there any publicly available directories, professional organizations, or other resources you can point me toward to identify specialists experienced in NHTSA grant administration, highway safety planning, and federal reporting?"

Answer: Unfortunately, the State does not have these resources. This RFP is posted in order to seek out these services.
