Minutes - 10/15/2013

- ① Minutes of last meeting Read & approved
- ② announcement - Bill Walker will have a meet and greet at paradisios - 4-6 pm Thurs. Oct. 17, 2013
- ③ David Martin - Reviewed the B.F work session which he attended. Met new Board member, Fritz Johnson
- ④ Jan. 14, 2014 will be elections for AC Members.
- ⑤ Lower Cook Inlet Board meeting at Egan Center in Anchorage Dec. 8-11. Comments due by Nov. 19.
- ⑥ Steve Vaneht moved; seconded by John McCombs, that David Martin or his designee be our Rep. at the lower Cook Inlet meeting.
- ⑦ - we began proposals on Lower Cook Inlet.
- ⑧ Recessed at 10:15 PM until next Tues. Oct. 22, 2013.

Alaska Board of Fisheries Lower Cook Inlet meeting December 8 - 11, 2013
Curtis Van Fish & Game Advisory Committee comments

#	Action Requested	AC Support or Oppose and comments
43	PROPOSAL XX - 5 AAC 28.36X. Cook Inlet Area State-Waters Groundfish Trawl Management Plan; 5 AAC 28.46X. Kodiak Area State-Waters Groundfish Trawl Management Plan; and 5 AAC 28.53X. Chignik Area State-Waters Groundfish Trawl Management Plan. Create state-waters groundfish management plans for trawl vessels less than 58 feet in the Cook Inlet, Kodiak, and Chignik management areas. (This proposal will be considered at the Chignik, Lower Cook Inlet, and Kodiak Finfish meetings.)	Failed ~ 10-0 Since it is only for these areas we oppose, should be statewide
44	5 AAC 28.36X. Cook Inlet Area Pollock Management Plan; 5 AAC 28.46X. Kodiak Area Pollock Management Plan; and 5 AAC 28.53X. Chignik Area Pollock Management Plan. Create state-waters walleye pollock management plans for Cook Inlet, Kodiak, and Chignik management areas. (This proposal will be considered at the Chignik, Lower Cook Inlet, and Kodiak Finfish meetings.)	Failed 10-0 There are concerns about kings being caught,
45	5 AAC 28.4XX. New Section; 5 AAC 28.5XX. New Section; and 5 AAC 28.5XX. New Section. Require 100 percent observer coverage on groundfish trawl vessels in state-waters of the Cook Inlet, Kodiak, and Chignik management areas. (This proposal will be considered at the Chignik, Lower Cook Inlet, and Kodiak Finfish meetings.)	passed 10-0 if trawling is allowed there should be 100% observer coverage
46	5 AAC 58.0XX. New Section. Allow party fishing in Cook Inlet saltwater sport fisheries,	Failed 10-0

This would set a bad precedent, just because many do it is no reason to condone it.

Alaska Board of Fisheries Lower Cook Inlet meeting December 8 - 11, 2013
Central Peninsula Fish & Game Advisory Committee comments

47 5 AAC 56.120. General provisions for seasons, bag, possession, and size limits, and methods and means for the Kenai Peninsula Area; 5 AAC 57.120. General provisions for seasons, bag, possession, and size limits, and methods and means for the Kenai River Drainage Area; 5 AAC 59.120. General provisions for seasons, bag, possession, and size limits, and methods and means for the Anchorage Bowl Drainages Area; 5 AAC 60.120. General provisions for seasons, bag, possession, and size limits, and methods and means for the Knik Arm Drainages Area; 5 AAC 61.110. General provisions for seasons, bag, possession, and size limits, and methods and means for the Susitna River Drainage Area; and 5 AAC 62.120. General provisions for seasons, bag, possession, and size limits, and methods and means for the West Cook Inlet Area. Prohibit use of barbed hooks while sport fishing for salmon in Cook Inlet fresh waters. (This proposal will be considered at the Lower and Upper Cook Inlet Finfish meetings.)	<u>Passed</u> <u>Yes</u> <u>No</u> Barbed hooks reduces C&R mortalities somewhat. It many current sport fishermen the catch and release (C&R) mortality is larger than the harvests with new information on the total C&R mortalities, by following the salmon to determine if it spawned or not and the viability of the spawn & fry, questions F&G and mortality numbers as being low by 5 to 6 times and the real mortality numbers jeopardizes the salmon runs and future production. ^{hops} the Oregon & Washington uses single, barbed ^{hooks} the Upper Kenai rainbow fishery & the lower Peninsula steelhead fishery are single hook barbed or single hook.
48 5 AAC 56.XXX. New Section; 5 AAC 57.XXX. New Section; 5 AAC 58.XXX. New Section; 5 AAC 59.XXX. New Section; 5 AAC 60.XXX. New Section; 5 AAC 61.XXX. New Section; and 5 AAC 62.XXX. New Section. Designate all waters where catch-and-release fishing occurs on salmon as single, unbaited, barbless-hook waters. (This proposal will be considered at the Lower and Upper Cook Inlet Finfish meetings.)	<u>Passed</u> <u>10</u> <u>yes</u> <u>one</u> See Prop. 47 comments and agree with issue!

FROM : DAVID R MARTIN

NOV. 06 2013 06:18PM P6

Alaska Board of Fisheries Lower Cook Inlet meeting December 8 - 11, 2013
Central Peninsula Fish & Game Advisory Committee comments

49	5 AAC 56.XXX. New Section; 5 AAC 57.XXX. New Section; 5 AAC 58.XXX. New Section; 5 AAC 59.XXX. New Section; 5 AAC 60.XXX. New Section; 5 AAC 61.XXX. New Section; and 5 AAC 62.XXX. New Section. Establish criteria to designate waters in Cook Inlet as single, unbaited, barbless hooks waters. (This proposal will be considered at the Lower and Upper Cook Inlet Finfish meetings.)	<u>Passed</u> <u>10 yes</u> <u>0 no</u> See comment on Prop. 47 Agree with the what will happen if nothing is done, comments.
50	5 AAC 56.XXX. New Section; 5 AAC 57.XXX. New Section; 5 AAC 59.XXX. New Section; 5 AAC 60.XXX. New Section; 5 AAC 61.XXX. New Section; and 5 AAC 62.XXX. New Section. Prohibit catch-and-release fishing for coho salmon in all Cook Inlet fresh waters. (This proposal will be considered at the Lower and Upper Cook Inlet Finfish meetings.)	<u>Passed</u> <u>8 yes</u> <u>2 no</u> <u>no</u> wanted no change. This provides sport fishing opportunity and harvest for food and eliminates the waste from catch & release mortality. Coho are more susceptible to CAR mortality, up to 70%, than other salmon. CAR mortality can decimate small coho fisheries.
51	5 AAC 58.030. Methods, means, and general provisions - Finfish. Prohibit catch-and-release fishing for coho salmon in the Cook Inlet-Resurrection Bay Saltwater Area,	<u>Passed</u> <u>7 yes</u> <u>3 no</u> See comments Prop. #50
52	5 AAC 56.XXX. New Section; 5 AAC 57.XXX. New Section; 5 AAC 59.XXX. New Section; 5 AAC 60.XXX. New Section; 5 AAC 61.XXX. New Section; and 5 AAC 62.XXX. New Section. Prohibit catch-and-release fishing for salmon in all Cook Inlet fresh waters. (This proposal will be considered at the Lower and Upper Cook Inlet Finfish meetings.)	<u>Passed</u> <u>8 yes</u> <u>2 no</u> See issue; comments and who is likely to benefit; this creates a responsible sport fishery and greatly reduces waste. This provides food. New CAR mortality data shows high number - CAR salmon don't spawn. No's wanted to keep catch & release fishing.
53	5 AAC 56.120. General provisions for seasons, bag, possession, and size limits, and methods and means for the Kenai Peninsula Area. Prohibit anglers who are releasing a fish from removing the head of a fish out of the water. (This proposal will be considered at the Lower and Upper Cook Inlet Finfish meetings.)	<u>Failed</u> <u>0 yes</u> <u>10 no</u> Concept is good but not a practical solution. It is better to not have catch & release. There are many stress related factors to CAR mortality even when the head is not taken out of the water. Lactic Acid build up etc.

Alaska Board of Fisheries Lower Cook Inlet meeting December 8 - 11, 2013
Central Pen Fish & Game Advisory Committee comments

54	5 AAC 56.XXX. New Section; 5 AAC 57.XXX. New Section; 5 AAC 59.XXX. New Section; 5 AAC 60.XXX. New Section; 5 AAC 61.XXX. New Section; and 5 AAC 62.XXX. New Section. Prohibit sport fishing in major spawning areas where spawning fish are present in Cook Inlet salmon waters. (This proposal will be considered at the Lower and Upper Cook Inlet Finfish meetings.)	<u>Passed 10-0</u> This makes so much sense, how could anybody be opposed. Fisherys that have seasons are prohibited from fishing during spawning. Only salmon are allowed to be harassed in their spawning areas
55	5 AAC 56.124. Harvest record required; annual limits for the Kenai Peninsula Area; 5 AAC 57.124. Harvest record required; annual limits for the Kenai River Drainage Area; 5 AAC 58.024. Harvest record required; annual limits; 5 AAC 59.124. Harvest record required; annual limits for the Anchorage Bowl Drainages Area; 5 AAC 60.124. Harvest record required; annual limits for the Knik Arm Drainages Area; 5 AAC 61.124. Harvest record required; annual limits for the Susitna River Drainage Area; and 5 AAC 62.124. Harvest record required; annual limits for the West Cook Inlet Area. Decrease Cook Inlet king salmon annual limit to two king salmon 20 inches or greater in length, of which only one can be from the Kenai River. (This proposal will be considered at the Lower and Upper Cook Inlet Finfish meetings.)	<u>Failed 10-0</u> If necessary; bag limit can be reduced by 1.0, or a fishery can be closed by 1.0, as state management dictates. leave it at 2.5 is.
56	5 AAC 58.022. Waters; seasons; bag, possession, and size limits; and special provisions for Cook Inlet-Resurrection Bay Saltwater Area. Decrease the Cook Inlet saltwater king salmon bag and possession limit to one king salmon and reduce the annual limit to two king salmon. (This proposal will be considered at the Lower and Upper Cook Inlet Finfish meetings.)	<u>Failed 10-0</u> See proposal 55

Alaska Board of Fisheries Lower Cook Inlet meeting December 8 - 11, 2013

Central Pen Fish & Game Advisory Committee comments

57	5 AAC 56.XXX. New Section; 5 AAC 57.XXX. New Section; 5 AAC 58.XXX. New Section; 5 AAC 59.XXX. New Section; 5 AAC 60.XXX. New Section; 5 AAC 61.XXX. New Section; and 5 AAC 62.XXX. New Section. Limit amount of sport-caught fish that may be exported to 100 pounds of fillets. (This proposal will be considered at the Lower and Upper Cook Inlet Finfish meetings.)	<u>Passed 10-0</u> This has been brought up many times. It is time to do this now. Alaska is the only place that allows the exploitation of its fishery resource to such a degree. It is a sad state of affairs to have freezers full of fish leave the state or boxes of fillets at the airport.
58	5 AAC 56.122. Special provisions and localized additions and exceptions to the seasons, bag, possession, and size limits, and methods and means for the Kenai Peninsula Area. Close Anchor River to sport fishing on Wednesdays.	<u>Passed 10-0</u> It has been closed by E.O. and wed. for a good reason. It should not have been opened in the first place.
59	5 AAC 56.122. Special provisions and localized additions and exceptions to the seasons, bag, possession, and size limits, and methods and means for the Kenai Peninsula Area. Delay reopening Anchor River, Deep Creek, and Stariski Creek to sport fishing by two weeks.	<u>Passed as amended 10-0</u> Amended to include Nivliik River also as Kings are still entering Nivliik River and need to be protected. <u>Passed 10-0</u>
60	5 AAC 56.122. Special provisions and localized additions and exceptions to the seasons, bag, possession, and size limits, and methods and means for the Kenai Peninsula Area. Modify sport fishing season to allow fishing during November and December on Lower Cook Inlet streams.	<u>Passed 10-0</u> It used to be opened. Will not affect steelhead since no fishing above mile marker except for dolies. Will not have much affect where rivers are ice covered.
61	5 AAC 56.122. Special provisions and localized additions and exceptions to the seasons, bag, possession, and size limits, and methods and means for the Kenai Peninsula Area. Reduce king salmon bag and possession limit to one fish on the Ninilichik River.	<u>Tie 5-yes; 5-no</u> yes votes - hook and release on wild kings causes mortality. after a wild salmon is caught an angler can still fish for a hatchery fish. no votes - felt that fishing is enhanced so hatchery fish can be caught even if a wild salmon has to be released.

Alaska Board of Fisheries Lower Cook Inlet meeting December 8 - 11, 2013
Curtis Pen Fish & Game Advisory Committee comments

62	5 AAC 62.122. Special provisions and localized additions and exceptions to the seasons, bag, possession, and size limits, and methods and means for the West Cook Inlet Area. Change the Clearwater Creek drainage closed-waters boundary description for sport fishing.	<u>Passed - 10-0</u> house keeping.
63	5 AAC 58.0XX. New Section. Allow use of sport-caught pink and chum salmon for bait in the salt waters of Cook Inlet.	<u>Failed 1-9</u> People are not confused, different areas have different regulations at the time. Bait and chum are a food fish. Should not encompass as bait.
64	5 AAC 58.0XX. New Section. Allow use of sport-caught pink salmon for bait in the salt waters of Cook Inlet.	no action - see proposal 63
65	5 AAC 58.0XX. New Section. Allow use of sport-caught spiny dogfish shark for bait in the salt waters of Cook Inlet.	<u>Passed 10-0</u> since there is no directed food fish on these, they could be used for bait.
66	5 AAC 58.030. Methods, means, and general provisions - Fishfish. Allow use of archery gear for sport fishing in Cook Inlet salt waters.	<u>Failed 1-9</u> 9-0 yes vote wanted the opportunity, no votes felt that there was really no fish that could be shot with an arrow. Also new gear type should not be introduced.
67	5 AAC 58.022. Waters, seasons, bag, possession, and size limits; and special provisions for Cook Inlet-Resurrection Bay Saltwater Area and 5 AAC 58.055, Upper Cook Inlet Salt Water Early-run King Salmon Management Plan. Relocate the Bluff Point marker north to the southern Anchor River marker for management of Upper Cook Inlet saltwater early-run king salmon sport fishery.	<u>Failed 10-0</u> leave it as is. GPS points are easily identified. Most boats now have GPS equipment.

Catalan

Fish & Game Advisory Committee comments

68	5 AAC 58.022. Waters; seasons; bag, possession, and size limits; and special provisions for Cook Inlet-Resurrection Bay Saltwater Area and 5 AAC 58.055. Upper Cook Inlet Salt Water Early-run King Salmon Management Plan. Relocate the Bluff Point marker north to the southern Anchor River marker for management of Cook Inlet king salmon sport fishery;	<u>NO action - see #67</u>
69	5 AAC 58.022. Waters; seasons; bag, possession, and size limits; and special provisions for Cook Inlet-Resurrection Bay Saltwater Area and 5 AAC 58.055. Upper Cook Inlet Salt Water Early-run King Salmon Management Plan. Modify the Upper Cook Inlet saltwater early-run king salmon season to end on June 24 instead of June 30.	<u>Failed 10-0</u> Maintain the current regulations until low king run issue is resolved. There are still kings going into Deep Creek at this time which are not late run kings
70	5 AAC 58.022. Waters; seasons; bag, possession, and size limits; and special provisions for Cook Inlet-Resurrection Bay Saltwater Area and 5 AAC 58.060. Lower Cook Inlet Winter Salt Water King Salmon Sport Fishery Management Plan. Modify the date king salmon apply to the annual limit in the Lower Cook Inlet winter saltwater king salmon fishery from April 1 to May 1.	<u>Failed 10-0</u> Leave it as is until low king salmon issue changes. There will be some spawning kings present in Kachemak Bay after April 1, because some are caught at Ninilchik in April.
71	5 AAC 58.022. Waters; seasons; bag, possession, and size limits; and special provisions for Cook Inlet-Resurrection Bay Saltwater Area and 5 AAC 58.060. Lower Cook Inlet Winter Salt Water King Salmon Sport Fishery Management Plan. Decrease the Lower Cook Inlet winter saltwater king salmon bag and possession limit to one fish, and establish an annual limit of two king salmon.	<u>Failed 9-0</u> (one person had to leave) (some only 9 left.) The winter king season is popular because there is no season limit. This proposal is too restrictive.
72	5 AAC 58.022. Waters; seasons; bag, possession, and size limits; and special provisions for Cook Inlet-Resurrection Bay Saltwater Area. Eliminate the third Saturday in August (late-run coho) from the youth-only fishery in the Nick Dudlak Fishing Lagoon.	<u>Failed - 9-0</u> we think Bear Creek coho should again be used. This is a put and take, no spawning and minimal staying if any.

Central Peninsula Fish & Game Advisory Committee comments

73	5 AAC 77.545. Kachemak Bay Personal Use Dip Net Fishery Management Plan. Require personal use-caught salmon in the China Pool dip net fishery to be marked,	<u>Passed</u> <u>yes</u> <u>one</u> Agree with Depart. we thought they had to mark them already.
74	5 AAC 58.022. Waters; seasons; bag, possession, and size limits; and special provisions for Cook Inlet-Resurrection Bay Saltwater Area. Decrease lingcod bag and possession limit in Cook Inlet from two to one,	<u>Passed</u> <u>yes</u> <u>two</u> Lingcod are slow growing and the sport pressure and harvest have increase dramatically in the last five years, more charterers are targeting lingcod and rockfish. No votes said one is not enough.
75	5 AAC 58.022. Waters; seasons; bag, possession, and size limits; and special provisions for Cook Inlet-Resurrection Bay Saltwater Area. Change the lingcod sport fishing season to begin on June 1 instead of July 1,	<u>Failed</u> <u>yes</u> <u>three</u> fishes are depleted, near shore halibut are depleted now they want to deplete slow growing lingcod. yes votes wanted earlier opening.
76	5 AAC 01.560. Fishing seasons and daily fishing periods. Clarify open periods for subsistence salmon fishing in August in Seldovia Bay, as follows:	<u>Passed</u> <u>yes</u> <u>two</u> housekeeping
77	5 AAC 21.200. Fishing districts, subdistricts, and sections. Change line and descriptions separating the Port Dick North and South sections in the Outer District,	<u>NO ACTION</u> we don't know enough about it & don't want to stir our noses in LCI salmon's business.
78	5 AAC 21.200. Fishing districts, subdistricts, and sections. Remove the "300 yards offshore" reference, and remove references to regulatory markers and replace with latitude and longitude coordinates for certain waters,	<u>Failed</u> <u>yes</u> <u>two</u> Department should fund the placement of regulatory markers. The markers work well for a visual image for fishermen & enforcement. A lot of solving is done with it. Siftney which are work shifts & absent GPS & other electronics.
79	5 AAC 21.350. Closed waters. Close waters to commercial fishing within one statute mile of the terminus of any anadromous fish stream in Cook Inlet as measured from mean lower low tide, not mean high tide. (This proposal will be considered at the Lower and Upper Cook Inlet Finfish meetings.)	<u>Failed</u> <u>yes</u> <u>two</u> west side to commercial fishing and went back to unmanageable and unenforceable regulations. The current regulations for the west side were developed by F&G enforcement and commercial fishermen and approved by the BOF to resolve unique problems the extensive mud flats creates. The current BOF resolved these problems and created an orderly & manageable fishery for both enforcement and the commercial fishermen. Coho stocks are healthy and harvested well below harvestable exploitation rates. The 2010

cohort CQR mortality occurring every day in these rivers and small streams are subject to denitrification the Coho Spawners and future production
