

Questions and Answers – February 19, 2015

How does the nomination process work?

Water bodies with anadromous fish species are added through a nomination process that is open year round. Following are web links to the Anadromous Waters Catalog (AWC) web site and information on what is required to add a water body to the AWC.

AWC web site -

<http://www.adfg.alaska.gov/sf/SARR/AWC/>

Nomination submission information –

<http://www.adfg.alaska.gov/sf/SARR/AWC/index.cfm?ADFG=noms.home>

How can I find the proposed Anadromous Waters Catalog changes in my area?

The proposed changes for all six regions of Alaska (Southeastern, Southcentral, Southwestern, Western, Arctic, and Interior) are available for inspection and copying at: the ADF&G offices in Anchorage, and in Fairbanks; the Alaska Resources Library in Anchorage; and the State Library in Juneau. The ADF&G offices in Craig, Palmer, Bethel, Cordova, Delta Junction, Dillingham, Dutch Harbor, Glennallen, Haines, Homer, Ketchikan, King Salmon, Kodiak, Sand Point, Nome, Sitka, Soldotna, Tok, Wrangell, Douglas, and Yakutat have copies of the proposed changes for their local region.

Electronic equivalents of the review documents and the atlas maps are also available through the ADF&G website at: <http://awc.adfg.alaska.gov>. The document 'Listing of Changes' on the ADFG website provides the information by area.
