ADDENDUM NO. 3

Invitation to Bid (ITB) 26-13-214320

Seward Freight Dock Expansion – Fender System

Alaska Railroad Corporation

Date: April 3, 2026

This Addendum is issued to provide clarification and additional information in response to bidder questions. All other terms and conditions of the referenced solicitation remain unchanged.

QUESTION AND ANSWERS:

1. Which Buy America / Buy American requirements apply to this project?

Based on MARAD Grant funding it has been determined the applicable Buy America/Buy American requirements for this project are as follows:

Required for Bid

4. Federal Certifications: Section G (Revised):

- # 22. FTA Buy America Certificate
- # 23. FRA Buy America Certificate
- # 25. Certification Regarding Use of Contract Funds for Lobbying
- # 34. Build America, Buy America Act –2 CFR 200.322; Section 70914 of Pub. L. No. 117-58, Div. G, Title IX, Subtitle A, 135 Stat. 429, 1298 (2021); 2 CFR Part 184 (Applies to all Federal-aid infrastructure contracts in excess of \$250,000.)

The four page Build America, Buy America Act #34 forms have been added to the list of required bid documents and are attached to this Addendum. Bids will not be considered if the required documents are not fully completed and submitted at the time of bid.

Please acknowledge receipt of this and all addenda in your firms Supply Bid Form (Form 395-0129).

Sincerely,

Sarah B. Wallace
Contract Administration Specialist
Alaska Railroad Corporation

34. BUILD AMERICA, BUY AMERICA ACT – 2 CFR 200.322; Section 70914 of Pub. L. No. 117-58, div. G, tit. IX, subtit. A, 135 Stat. 429, 1298 (2021); 2 CFR Part 184 [Applies to all Federal-aid infrastructure contracts in excess of \$250,000]

Contractors and their subcontractors who apply or bid for an award for an infrastructure project subject to the domestic preference requirement in the Build America, Buy America Act (BABA) shall file the required certification to ARRC with each bid or offer for an infrastructure project, unless a domestic preference requirement is waived by U.S. DOT. Contractors and subcontractors certify that no federal financial assistance funding for infrastructure projects will be provided unless all the iron, steel, manufactured projects, and construction materials used in the project are produced in the United States. BABA, Pub. L. No. 117-58, §§ 70901-52. Contractors and subcontractors shall also disclose any use of federal financial assistance for infrastructure projects that do not ensure compliance with BABA domestic preference requirements. Such disclosures shall be forwarded to ARRC which in turn will forward the disclosures to the federal awarding agency.

For contracts subject to BABA, contractors and subcontractors must sign and submit the following certification to the next tier (e.g., subcontractors submit to the contractor; contractors submit to the non-federal entity):

The undersigned certifies, to the best of its knowledge and belief, that:

The Build America, Buy America Act (BABA) requires that no federal financial assistance for “infrastructure” projects is provided “unless all of the iron, steel, manufactured products, and construction materials used in the project are produced in the United States.” Section 70914 of Public Law No. 117-58, §§ 70901-52.

The undersigned certifies that the iron, steel, manufactured products, and construction materials used in this contract are in full compliance with the BABA requirements including:

1. All iron and steel used in the project are produced in the United States. This means all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States.
2. All manufactured products purchased with federal financial assistance must be produced in the United States. For a manufactured product to be considered produced in the United States, the cost of the components of the manufactured product that are mined, produced, or manufactured in the United States is greater than 55% of the total cost of all components of the manufactured product, unless another standard for determining the minimum amount of domestic content of the manufactured product has been established under applicable law or regulation.
3. All construction materials are manufactured in the United States. This means that all manufacturing processes for the construction material occurred in the United States.

The undersigned certifies or affirms the truthfulness and accuracy of each statement of its certification and disclosure, if any. In addition, the undersigned understands and agrees that the provisions of 31 U.S.C. Chap. 38, Administrative Remedies for False Claims and Statements, apply to this certification and disclosure, if any.

CERTIFICATION

I hereby certify the materials to be installed pursuant to the attached Bid Submittal conform to the Build America, Buy America Act (BABA) requirements under – 2 CFR 200.322; Section 70914 of Pub. L. No. 117-58, div. G, tit. IX, subtit. A, 135 Stat. 429, 1298 (2021); 2 CFR Part 184 [Applies to all Federal-aid infrastructure contracts in excess of \$250,000]

By signing, I certify the statements above are true to the best of my ability and knowledge and that the listed materials for use in this project funded by federal dollars were produced in the United States of America.

CONTRACTOR NAME:	CONTRACTOR SIGNATURE:	DATE:
COMPANY NAME:		

PURPOSE: The “Buy America Certification Form” is used to certify that, as required by federal law, all of the iron, steel (for FY23 funded projects and forward), specific construction materials – non-ferrous metals, lumber, composite building materials, plastic and polymer based pipe and tube, (for FY24 funded projects and forward), all construction materials, including manufactured products (for FY25 funded projects and forward) utilized in federally funded projects with an aggregate of \$250,000, are produced in the United States in a manner that complies with the Build America, Buy America Act, unless an applicable waiver applies or is granted by the Made in America Office of Management and Budget (MIAO).

GENERAL INFORMATION: BABA guidance requires the following Buy America preference:

The Prime Contractor is responsible for all subcontractors and for ensuring that all manufacturers and suppliers certify materials with the understanding that those certifying the material assume full legal responsibility of the material and are subject to providing documentation verifying the material meets all requirements upon demand. Any additional materials needed for the project should be itemized, specify if BABA applies, and then certified by the engineer and maintained in the grantee’s records with the official Change Order.
