SECTION 1. INTRODUCTION & INSTRUCTIONS

SEC. 1.01 PURPOSE OF THE ITB

The Department of Transportation and Public Facilities, Division of Marine Highways, is soliciting bids from qualified contractors to collect, test and dispose of used oil and oily waste from Alaska Marine Highways terminals and vessels at the Ports of Juneau, Ketchikan, Whittier and Homer, Alaska. Bidders may bid on one or multiple Lots.

Quantities stated are estimates for evaluation purposes only. This solicitation is intended to result in As-Needed contracts, and no minimum or maximum usage of the resulting contracts will be guaranteed.

SEC. 1.02 DEADLINE FOR RECEIPT OF BIDS

Bids must be received no later than 2:00 pm Alaska Standard Time on 27 July, 2026, at which time they will be publicly opened. Late bids or amendments will be considered non-responsive and will not be opened or accepted for evaluation.

SEC. 1.03 PRIOR EXPERIENCE

Bidders will provide evidence that personnel proposed to perform work under the resulting contract have sufficient training and licensing necessary to perform the tasks required under the scope of work. The contractor personnel will meet all State and Federal training, certification and licensure requirements for the services they will perform.

A bidder's failure to provide evidence that personnel performing these services meet the minimum prior experience and licensure requirements may cause their bid to be found non-responsive and rejected.

SEC. 1.04 REQUIRED REVIEW

Bidders shall carefully review this ITB for defects and questionable or objectionable material. Comments concerning defects and questionable or objectionable material in the ITB should be made in writing and received by the procurement officer at least ten days before the deadline for receipt of bids. This will allow time for an amendment to be issued if one is required. It will also help prevent the opening of a defective bid, upon which award cannot be made, and the resultant exposure of bidders' prices.

SEC. 1.05 QUESTIONS PRIOR TO DEADLINE FOR RECEIPT OF BIDS

All questions must be in writing and directed to the procurement officer. The interested party must confirm telephone conversations in writing. Two types of questions generally arise. One may be answered by directing the questioner to a specific section of the ITB. These questions may be answered over the telephone. Other questions may be more complex and may require a written amendment to the ITB. The procurement officer will make that decision.

SEC. 1.06 SITE INSPECTION

Site inspections are optional and intended for the bidders to be familiarized with terminal access, vessel interface locations and general working conditions. Bidders wishing to addend a site inspection will contact Frank Wyne 907-228-6829/ frank.wyne@alaska.gov to arrange for a site inspection.

The site inspection contact is only authorized to coordinate access to the terminal or vessel areas, and will not answer any questions regarding the solicitation, specifications, scope of work or contract requirements. Any questions regarding the solicitation will be directed to the Procurement Officer in accordance with Section 1.05.

SEC. 1.07 RETURN INSTRUCTIONS

Bidders must submit one hard copy of their entire bid, in writing, to the procurement officer in a sealed package, or may be submitted electronically via email.

If submitting your bid via email, the entire bid may be emailed to dotstatewideprocurement@alaska.gov and must contain the ITB number in the subject line of the email. The **maximum** size of a single email (including all text and attachments) that can be received by the state is **20mb (megabytes)**. If the email containing the bid exceeds this size, the bid must be sent in multiple emails that are each less than 20 megabytes and each email must comply with the requirements described above.

Please note that email transmission is not instantaneous. Like sending a hard copy bid, if you are emailing your bid, the state recommends sending it enough ahead of time to ensure the email is delivered by the deadline for receipt of bids.

It is the bidder's responsibility to contact the issuing agency at 907-465-6949 to confirm that the entire bid has been received. The state is not responsible for unreadable, corrupt, or missing attachments.

An offeror's failure to submit its bid prior to the deadline will cause the bid to be disqualified. Late bids or amendments will not be opened or accepted for evaluation.

Please take into consideration that due to weather, scheduling, and location there is no overnight delivery service to Juneau, Alaska.

SEC. 1.08 ASSISTANCE TO BIDDERS WITH A DISABILITY

The State of Alaska complies with Title II of the Americans with Disabilities Act of 1990. Individuals with disabilities who may need auxiliary aids, services, and/or special modifications to submit a bid should contact the Procurement Officer no later than ten days prior to the closing of the bid to make any necessary arrangements.

SEC. 1.09 AMENDMENTS TO BIDS

Amendments to or withdrawals of bids will only be allowed if acceptable requests are received prior to the deadline that is set for receipt of bids, in accordance with 2 AAC 12.140. No amendments or withdrawals will be accepted after the deadline unless the delay is due to an error of the contracting agency, in accordance with 2 AAC 12.160.

SEC. 1.10 AMENDMENTS TO THE ITB

If an amendment is issued before the deadline for receipt of bids, the amendment will be posted on the State of Alaska Online Public Notice (OPN) website. The link to the posting of the amendment will be provided to all who were notified of the ITB and to those who have registered with the procurement officer after receiving the ITB from the OPN.

SEC. 1.11 ITB SCHEDULE

The ITB schedule below represents the State of Alaska's best estimate of the schedule that will be followed. If a component of this schedule, such as the deadline for receipt of bids, is delayed, the rest of the schedule may be shifted accordingly. All times are Alaska Standard Time (AST).

ACTIVITY	TIME	DATE

The state's obligation will commence when the contract is approved by the Commissioner of the Department of Transportation and Public Facilities, or the Commissioner's designee. Upon written notice to the contractor, the state may set a different starting date for the contract. The state will not be responsible for any work done by the contractor, even work done in good faith, if it occurs prior to the contract start date set by the state.

SEC. 1.12 ALTERNATE BIDS

Bidders may only submit one bid for evaluation. In accordance with 2 AAC 12.830 alternate bids (bids that offer something different than what is asked for) will be rejected.

SEC. 1.13 SUPPORTING INFORMATION

Provided a bid meets the requirements for a definite, firm, unqualified, and unconditional offer, the state reserves the right to request supplemental information from the bidder, after the bids have been opened, to ensure that the products or services offered completely meet the ITB requirements. The requirement for such supplemental information will be at the reasonable discretion of the state and may include the requirement that a bidder will provide a sample product(s) so that the state can make a first-hand examination and determination.

A bidder's failure to provide this supplemental information or the product sample(s), within the time set by the state, may cause the state to consider the offer non-responsive and reject the bid.

SEC. 1.14 FIRM, UNQUALIFIED, AND UNCONDITIONAL OFFER

To be responsive a bid must constitute a definite, firm, unqualified and unconditional offer to meet all the material terms of the ITB. Material terms are those that could affect the price, quantity, quality, or delivery. Also included as material terms are those which are clearly identified in the ITB, and which must be complied with at risk of bid rejection for non-responsiveness.

SECTION 2. SCOPE OF WORK AND CONTRACT INFORMATION

SEC. 2.01 SCOPE OF WORK

This solicitation is intended to result in As-Needed contracts for the testing, removal and disposal of used oil and oily waste (hereafter oily waste) from Alaska Marine Highway System (hereafter AMHS) vessels and holding tanks at AMHS terminals. The terminals where these services will be performed are located in Juneau, Ketchikan, Whittier and Homer, Alaska. Services will be provided at the request and direction of the State.

Award will be made by lot. Bidders may bid on one or multiple lots, and award will be made to the lowest responsive and responsible bidder for each lot. To be responsive, Bidders must bid on all items within a lot to be considered susceptible to award. Contractors may be awarded for multiple lots.

Services will be requested and scheduled by the State. Contractors will perform these services onsite within 24 hours of the State's request for these services, or at a predetermined time and date.

There will be two components to each lot, Standby Time, and Testing, Removal, Transport and Disposal of oily waste.

STANDBY TIME

Contractors will be required to arrive at a terminal to meet a vessel at a scheduled time and date. If the Contractor is required to wait for the vessel's arrival, they will be compensated for this time. Standby time will be based on an hourly rate. Standby time will begin when the Contractor checks in with the AMHS terminal contact at the scheduled time and date and will stop upon the Contractor personnel accessing the vessel to perform the testing and removal of oily waste.

In the event oily waste is stored in holding tanks shoreside, standby time will not apply.

TESTING, REMOVAL, TRANSPORT AND DISPOSAL

The testing, removal, transport and disposal of oily waste will be based on a per gallon rate, and the Contractor will be compensated per gallon.

TESTING REQUIREMENTS

All testing will be performed at the Contractor's expense and all costs will be taken into consideration in the Contractor's bid.

The Contractor will perform onsite testing for the presence of chlorides in oily waste prior to transfer.

The Contractor will collect representative samples of oily waste from AMHS vessels or holding tanks and submit them to an authorized testing laboratory for analysis. Samples will be tested for benzene, PCBs₁ TCLP (for metals), ph, sulfide, HO₂, flash point (min 139) and halogens. A final hazardous determination will occur after the analysis is completed and the samples prove to be within allowable parameters per federal regulations.

Oily waste will be held by the Contractor prior to receiving lab results and the final disposition is determined. Records will be kept by the Contractor documenting tank numbers and the dates the containers were emptied. These records will be available to the State for inspection upon demand.

The State will keep samples for a period of no less than 3 months in the event re-testing is required. The Contractor will not mix any oily waste that originated from the State until testing has been completed, and the lab results

show the product to meet allowable parameters. In the event the oily waste is mixed with waste from any other source by the Contractor, the waste will no longer be the responsibility of the State.

Oily waste will be held at the Contractor's expense until testing for hazardous contaminants is completed and the waste is shown to meet allowable parameters. Upon a non-hazardous determination, the Contractor will dispose of the oily waste.

HAZARDOUS CONTAMINATION

If tests result show samples to contain hazardous contaminants beyond allowable levels, the Contractor will notify the State immediately upon discovery. The State will then make arrangements for disposal of the hazardous waste. All costs of the disposal of contaminated waste will be the responsibility of the State.

SCHEDULING

The State will schedule a pick-up when there is a minimum of 500 gallons of oily waste available for removal unless there is an operational necessity that requires the removal of less oily waste. The Contractor is required to pick up all oily waste tested to be free of chlorides.

Ownership of oily waste will pass to Contractor upon pick up and the Contractor assumes all responsibility for the oily waste after transfer. Any transportation, storage, handling, spill response and regulatory compliance will become the responsibility of the Contractor.

The State reserves the right to delay, reschedule or cancel transfers due to vessel operations, weather, mechanical delays, schedule changes or emergency conditions.

MECHANICAL REQUIREMENTS

Equipment used for the transfer of oily waste must be capable of removing oily waste from either storage tanks on shore, storage tanks aboard vessels, or directly from the bilges of AMHS vessels. Equipment will be capable of transferring oily waste at a minimum of 30 gallons per minute. The Contractor will provide all hoses, fittings and connections to interface with AMHS vessel and terminal systems.

The Contractor will provide equipment capable of transferring oily waste from the bilge level of an AMHS vessel to the car deck (approximately 25 feet) at 45° F. The Contractor will provide a minimum of 50 feet of suction hose to perform this task.

Equipment will be capable of operating safely in freezing temperatures and adverse weather conditions.

CONTRACTOR REQUIREMENTS

The Contractor will provide all labor, materials, supplies, tools, and equipment to satisfactorily perform the services included in this solicitation.

The Contractor and Contractor personnel performing services under the resulting contract will be fully qualified and meet or exceed any applicable requirements. The Contractor and Contractor personnel will possess all required licenses and certifications, and meet all qualifications to perform the services within this scope of work.

The Contractor will comply with any applicable Federal, State and local labor, wage & hour, safety and any associated laws and regulations which may have a bearing on the services provided.

Contractors will comply with 40 CFR Part 279 regulating the management of used oil. Upon demand by the State, the Contractor will provide any licenses or certifications applicable to these regulations.

Contractors will possess the following and submit evidence with their bid:

1. Current EPA Number
2. Current Hazardous Materials Certificate of Registration
3. Current Emergency Response Certificate

INSPECTION

Inspection of all equipment will be made available at the request of the State at any time. The Contractor will allow Inspection of equipment and operations during the transfer of oily waste from AMHS vessels or storage tanks. All equipment used in the performance of these services will meet all regulatory requirements for inspection, safety, fire, and transportation of oily waste. Contractor storage facilities will meet all regulatory requirements for storage and transfer of oily waste. All required permits, licenses and inspections will be maintained throughout the life of the resulting contract and must be provided to the State upon demand.

“Contractor” and “contracting agency”, as used within this and the following article, include the employees, agents and other contractors who are directly responsible, respectively, to each. The term “independent negligence” is negligence other than in the contracting agency’s selection, administration, monitoring, or controlling of the contractor and in approving or accepting the contractor’s work.

Certificates of Insurance must be furnished to the procurement officer prior to contract approval and must provide for a notice of cancellation, non-renewal, or material change of conditions in accordance with policy provisions. Failure to furnish satisfactory evidence of insurance or lapse of the policy is a material breach of this contract and shall be grounds for termination of the contractor's services. All insurance policies shall comply with and be issued by insurers licensed to transact the business of insurance under AS 21.

Proof of insurance is required for the following:

- Workers' Compensation Insurance: The contractor shall provide and maintain, for all employees engaged in work under this contract, coverage as required by AS 23.30.045, and where applicable, any other statutory obligations including but not limited to Federal U.S.L. & H. and Jones Act requirements. A copy of the Notice of Intent will be sent to each company or person who responded to the ITB. Bidders identified as the apparent low responsive bidders are instructed not to proceed until a Purchase Order, Contract Award, Lease, or some other form of written notice is given by the procurement officer. - are trivial, negligible, or immaterial in nature,
- do not reflect a material change in the work, or
- do not constitute a substantial reservation against a requirement or provision,

may be waived by the procurement officer.

APPENDIX B¹

INDEMNITY AND INSURANCE

Article 1. Indemnification

The contractor shall indemnify, hold harmless, and defend the contracting agency from and against any claim of, or liability for error, omission or negligent act of the contractor under this agreement. The contractor shall not be required to indemnify the contracting agency for a claim of, or liability for, the independent negligence of the contracting agency. If there is a claim of, or liability for, the joint negligent error or omission of the contractor and the independent negligence of the contracting agency, the indemnification and hold harmless obligation shall be apportioned on a comparative fault basis. “Contractor” and “contracting agency”, as used within this and the following article, include the employees, agents and other contractors who are directly responsible, respectively, to each. The term “independent negligence” is negligence other than in the contracting agency’s selection, administration, monitoring, or controlling of the contractor and in approving or accepting the contractor’s work.

Article 2. Insurance

Without limiting contractor's indemnification, it is agreed that contractor shall purchase at its own expense and maintain in force at all times during the performance of services under this agreement the following policies of insurance. Where specific limits are shown, it is understood that they shall be the minimum acceptable limits. If the contractor's policy contains higher limits, the state shall be entitled to coverage to the extent of such higher limits. Certificates of Insurance must be furnished to the contracting officer prior to beginning work and must provide for a notice of cancellation, non-renewal, or material change of conditions in accordance with policy provisions. Failure to furnish satisfactory evidence of insurance or lapse of the policy is a material breach of this contract and shall be grounds for termination of the contractor's services. All insurance policies shall comply with and be issued by insurers licensed to transact the business of insurance under AS 21.

2.1 Workers' Compensation Insurance: The Contractor shall provide and maintain, for all employees engaged in work under this contract, coverage as required by AS 23.30.045, and; where applicable, any other statutory obligations including but not limited to Federal U.S.L. & H. and Jones Act requirements. The policy must waive subrogation against the State.

2.2 Commercial General Liability Insurance: covering all business premises and operations used by the Contractor in the performance of services under this agreement with minimum coverage limits of \$300,000 combined single limit per claim.

2.3 Commercial Automobile Liability Insurance: covering all vehicles used by the Contractor in the performance of services under this agreement with minimum coverage limits of \$300,000 combined single limit per claim.
